EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q for the quarter ended June 30, 2019 of CBL & Associates Properties, Inc. and CBL & Associates Limited Partnership. Unless stated otherwise or the context otherwise requires, references to the "Company" mean CBL & Associates Properties, Inc. and its subsidiaries. References to the "Operating Partnership" mean CBL & Associates Limited Partnership and its subsidiaries. The terms "we," "us" and "our" refer to the Company or the Company and the Operating Partnership collectively, as the context requires.

The Company is a real estate investment trust ("REIT") whose stock is traded on the New York Stock Exchange. The Company is the 100% owner of two qualified REIT subsidiaries, CBL Holdings I, Inc. and CBL Holdings II, Inc. At June 30, 2019, CBL Holdings I, Inc., the sole general partner of the Operating Partnership, owned a 1.0% general partner interest in the Operating Partnership and CBL Holdings II, Inc. owned an 85.6% limited partner interest for a combined interest held by the Company of 86.6%.

As the sole general partner of the Operating Partnership, the Company's subsidiary, CBL Holdings I, Inc., has exclusive control of the Operating Partnership's activities. Management operates the Company and the Operating Partnership as one business. The management of the Company consists of the same individuals that manage the Operating Partnership. The Company's only material asset is its indirect ownership of partnership interests of the Operating Partnership. As a result, the Company conducts substantially all its business through the Operating Partnership as described in the preceding paragraph. The Company also issues public equity from time to time and guarantees certain debt of the Operating Partnership. The Operating Partnership holds all of the assets and indebtedness of the Company and, through affiliates, retains the ownership interests in the Company's joint ventures. Except for the net proceeds of offerings of equity by the Company, which are contributed to the Operating Partnership in exchange for partnership units on a one-for-one basis, the Operating Partnership generates all remaining capital required by the Company's business through its operations and its incurrence of indebtedness.

We believe that combining the two quarterly reports on Form 10-Q for the Company and the Operating Partnership provides the following benefits:

- enhances investors' understanding of the Company and the Operating Partnership by enabling investors to view the business as a whole in the same manner that management views and operates the business;
- eliminates duplicative disclosure and provides a more streamlined and readable presentation, since a substantial portion of the disclosure applies to both the Company and the Operating Partnership; and
- creates time and cost efficiencies through the preparation of one combined report instead of two separate reports.

To help investors understand the differences between the Company and the Operating Partnership, this report provides separate condensed consolidated financial statements for the Company and the Operating Partnership. Noncontrolling interests, shareholders' equity and partners' capital are the main areas of difference between the condensed consolidated financial statements of the Company and those of the Operating Partnership. A single set of notes to condensed consolidated financial statements is presented that includes separate discussions for the Company and the Operating Partnership, when applicable. A combined Management's Discussion and Analysis of Financial Condition and Results of Operations section is also included that presents combined information and discrete information related to each entity, as applicable.

In order to highlight the differences between the Company and the Operating Partnership, this report includes the following sections that provide separate financial and other information for the Company and the Operating Partnership:

- condensed consolidated financial statements;
- certain accompanying notes to condensed consolidated financial statements, including [Note 7](#) - Unconsolidated Affiliates and Noncontrolling Interests; [Note 8](#) - Mortgage and Other Indebtedness, Net; and [Note 11](#) - Earnings per Share and Earnings per Unit;
- controls and procedures in [Item 4](#) of Part I of this report;
- information concerning unregistered sales of equity securities and use of proceeds in [Item 2](#) of Part II of this report; and
- certifications of the Chief Executive Officer and Chief Financial Officer included as Exhibits 31.1 through 32.4.

Combined Guarantor Subsidiaries of the Operating Partnership

In January 2019, the Operating Partnership entered into a new \$1,185,000 senior secured credit facility which replaced all of the Operating Partnership's prior unsecured bank facilities. The secured credit facility is secured by 17 malls and 3 associated centers that are directly or indirectly owned by 36 wholly owned subsidiaries of the Operating Partnership (collectively the "Combined Guarantor Subsidiaries"). The Combined Guarantor Subsidiaries own an additional five malls, one associated center and four mortgage notes receivable that are not collateral for the secured credit facility. The properties that are collateral for the secured credit facility and the properties and mortgage notes receivable that are not collateral are collectively referred to as the "Guarantor Properties." In addition to the secured credit facility, the Operating Partnership's debt includes three separate series of senior unsecured notes (the "Notes"). Based on the terms of the Notes, to the extent that any subsidiary of the Operating Partnership executes and delivers a guarantee to another debt facility, the Operating Partnership shall also cause the subsidiary to guarantee the Operating Partnership's obligations under the Notes on a senior basis. In January 2019, the Combined Guarantor Subsidiaries entered a guarantee agreement with the issuer of the Notes to satisfy the guaranty requirement.

This report also includes as an exhibit the combined financial statements and notes to the combined financial statements of the Combined Guarantor Subsidiaries. Each of the Combined Guarantor Subsidiaries meet the criteria in Rule 3-10(f) of SEC Regulation S-X to provide condensed consolidating financial information as additional disclosure in the notes to the Operating Partnership's condensed consolidated financial statements because each Combined Guarantor Subsidiary is 100% owned by the Operating Partnership, the guaranty issued by each Combined Guarantor Subsidiary is full and unconditional and the guaranty issued by each Combined Guarantor Subsidiary is joint and several. However, the Operating Partnership has elected to provide combined financial statements and accompanying notes for the Combined Guarantor Subsidiaries in lieu of including the condensed consolidating financial information in the notes to its condensed consolidated financial statements. These combined financial statements and notes are presented as an exhibit to this quarterly report on Form 10-Q for ease of reference.

CBL & Associates Limited Partnership
Notes to Unaudited Condensed Consolidated Financial Statements
(Dollars in thousands, except per share and per unit data)

Note 1 – Organization and Basis of Presentation

Unless stated otherwise or the context otherwise requires, references to the "Company" mean CBL & Associates Properties, Inc. and its subsidiaries. References to the "Operating Partnership" mean CBL & Associates Limited Partnership and its subsidiaries.

CBL & Associates Properties, Inc. ("CBL"), a Delaware corporation, is a self-managed, self-administered, fully-integrated real estate investment trust ("REIT") that is engaged in the ownership, development, acquisition, leasing, management and operation of regional shopping malls, open-air and mixed-use centers, outlet centers, associated centers, community centers and office properties. Its properties are located in 26 states, but are primarily in the southeastern and midwestern United States.

CBL conducts substantially all of its business through CBL & Associates Limited Partnership (the "Operating Partnership"), which is a variable interest entity ("VIE"). The Operating Partnership consolidates the financial statements of all entities in which it has a controlling financial interest or where it is the primary beneficiary of a VIE.

As of June 30, 2019, the Operating Partnership owned interests in the following properties:

	Other Properties				Total
	Malls (1)	Associated Centers	Community Centers	Office Buildings/Other	
Consolidated properties	56	20	2	5 (2)	83
Unconsolidated properties (3)	8	3	5	2	18
Total	64	23	7	7	101

(1) Category consists of regional malls, open-air centers and outlet centers (including one mixed-use center).

(2) Includes CBL's two corporate office buildings.

(3) The Operating Partnership accounts for these investments using the equity method because one or more of the other partners have substantive participating rights.

At June 30, 2019, the Operating Partnership had interests in the following properties under development:

	Consolidated Properties	
	Malls	All Other
Redevelopments	6	—

CBL is the 100% owner of two qualified REIT subsidiaries, CBL Holdings I, Inc. and CBL Holdings II, Inc. At June 30, 2019, CBL Holdings I, Inc., the sole general partner of the Operating Partnership, owned a 1.0% general partner interest in the Operating Partnership and CBL Holdings II, Inc. owned an 85.6% limited partner interest for a combined interest held by CBL of 86.6%.

The noncontrolling interest in the Operating Partnership is held by CBL & Associates, Inc., its shareholders and affiliates and certain senior officers of the Company (collectively "CBL's Predecessor"), all of which contributed their interests in certain real estate properties and joint ventures to the Operating Partnership in exchange for a limited partner interest when the Operating Partnership was formed in November 1993, and by various third parties. At June 30, 2019, CBL's Predecessor owned a 9.1% limited partner interest and third parties owned a 4.3% limited partner interest in the Operating Partnership. CBL's Predecessor also owned 4.3 million shares of CBL's common stock at June 30, 2019, for a total combined effective interest of 11.2% in the Operating Partnership.

The Operating Partnership conducts the Company's property management and development activities through its wholly owned subsidiary, CBL & Associates Management, Inc. (the "Management Company"), to comply with certain requirements of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code").

The accompanying condensed consolidated financial statements are unaudited; however, they have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and in conjunction with the rules and regulations of the Securities and Exchange Commission ("SEC"). Accordingly, they do not include all of the disclosures required by GAAP for complete financial

statements. In the opinion of management, all adjustments (consisting solely of normal recurring matters) necessary for a fair presentation of the financial statements for these interim periods have been included. All intercompany transactions have been eliminated. The results for the interim period ended June 30, 2019 are not necessarily indicative of the results to be obtained for the full fiscal year.

These condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto included in its Annual Report on Form 10-K for the year ended December 31, 2018.

Reclassifications

Certain reclassifications have been made to amounts in the Company's prior-year financial statements to conform to the current period presentation. The Company reclassified certain amounts related to operating expense reimbursements in its condensed consolidated statements of operations for the three and six months ended June 30, 2018 related to the adoption of ASC 606. As a result, operating expense reimbursements of \$2,168 and \$4,511, previously included in tenant reimbursements, were reclassified to other revenues for the three months and six months ended June 30, 2018, respectively. Additionally, the Company reclassified minimum rents, percentage rents, other rents and tenant reimbursements into one line item, rental revenues, for the three and six months ended June 30, 2018 related to the adoption of ASC 842. Lastly, in accordance with ASC 360, and in response to the SEC's "Disclosure Update and Simplification" release effective November 5, 2018, the Company reclassified gains and losses resulting from wholly owned real estate dispositions from the line item following "Income (loss) from continuing operations before gain on sales of real estate assets" to the "Other Income (Expenses)" section within its condensed consolidated statements of operations. As a result, in the condensed consolidated statements of operations, the Company reclassified \$3,747 and \$8,118 to the "Other Income (Expenses)" section for the three and six months ended June 30, 2018, respectively.

Note 2 – Recent Accounting Pronouncements

Accounting Guidance Adopted

Description	Date Adopted & Application Method	Financial Statement Effect and Other Information
ASU 2016-02, <i>Leases</i> , and related subsequent amendments	January 1, 2019 - Modified Retrospective (elected optional transition method to apply at adoption date and record cumulative-effect adjustment as of January 1, 2019)	The objective of the leasing guidance is to increase transparency and comparability by recognizing lease assets and liabilities on the balance sheet and disclosing key information about leasing arrangements. Putting nearly all leases on the balance sheet is the biggest change for lessees, as lessees will now be required to recognize a right-of-use ("ROU") asset and corresponding lease liability for leases with terms greater than 12 months. Under the FASB model, lessees will classify a lease as either a finance lease or an operating lease, while a lessor will classify a lease as either a sales-type, direct financing, or operating lease. A lessee should classify a lease based on whether the arrangement is effectively a purchase of the underlying asset. Leases that transfer control of the underlying asset to a lessee are classified as finance leases for lessees and sales-type leases for lessors, whereas leases where the lessee obtains control of only the use of the underlying asset, but not the underlying asset itself, will be classified as operating leases for both lessees and lessors. A lease may meet the lessee finance lease criteria even when control of the underlying asset is not transferred to the lessee, and in these cases the lease would be classified as an operating lease for the lessee and a direct finance lease by the lessor. The guidance to be applied by lessors is substantially similar to existing GAAP. In order to align lessor accounting with the principles in the revenue recognition guidance in ASC 606, a lessor is precluded from recognizing selling profit or sales revenue at lease commencement for a lease that does not transfer control of the underlying asset to the lessee. As a lessee, the guidance impacted the Company's condensed consolidated financial statements through the recognition of right-of-use ("ROU") assets and corresponding lease liabilities for operating leases as of January 1, 2019. As a lessor, the guidance impacted the Company's condensed consolidated financial statements in regard to the narrowed definition of initial direct costs that can be capitalized, the change in the presentation of rental revenues as one line item and the change in reporting uncollectable operating lease receivables as a reduction of rental revenues instead of property operating expense. The adoption did not result in a cumulative catch-up adjustment to opening equity. See Note 4 for further details.

Accounting Guidance Not Yet Effective

Description	Expected Adoption Date & Application Method	Financial Statement Effect and Other Information
ASU 2016-13, <i>Measurement of Credit Losses on Financial Instruments</i>	January 1, 2020 - Modified Retrospective	<p>The guidance replaces the current incurred loss impairment model, which reflects credit events, with a current expected credit loss model, which recognizes an allowance for credit losses based on an entity's estimate of contractual cash flows not expected to be collected.</p> <p>The Company is evaluating the impact that this update may have on its condensed consolidated financial statements and related disclosures.</p>
ASU 2018-15, <i>Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract</i>	January 1, 2020 - Prospective	<p>The guidance addresses diversity in practice in accounting for the costs of implementation activities in a cloud computing arrangement that is a service contract. Under the guidance, the Company is to follow Subtopic 350-40 on internal-use software to determine which implementation costs to capitalize and which to expense.</p> <p>The guidance also requires an entity to expense capitalized implementation costs over the term of the hosting arrangement and include that expense in the same line item as the fees associated with the service element of the arrangement.</p> <p>The Company does not expect the adoption of this guidance will have a material impact on its condensed consolidated financial statements or disclosures.</p>

Revenue from Contracts with Customers

Operating expense reimbursements

Under operating and other agreements with third parties that own anchor or outparcel buildings at the Company's properties and pay no rent, the Company receives reimbursements for certain operating expenses such as ring road and parking lot maintenance, landscaping and other fees. These arrangements are primarily either set at a fixed rate with rate increases typically every five years or are on a variable (pro rata) basis, typically as a percentage of costs allocated based on square footage or sales. The majority of these contracts have an initial term and one or more extension options, which cumulatively approximate 50 or more years as historically the initial term and any extension options are reasonably certain of being executed by the third party. The standalone selling price of each performance obligation is determined based on the terms of the contract, which typically assign a price to each performance obligation that directly relates to the value the customer receives for the services being provided. Revenue is recognized as services are transferred to the customer. Variable consideration is based on historical experience and is generally recognized over time using the

cost-to-cost method of measurement because it most accurately depicts the Company's performance in satisfying the performance obligation. The cumulative catch-up method is used to recognize any adjustments in variable consideration estimates. Under this method, any adjustment is recognized in the period it is identified.

Management, development and leasing fees

The Company earns revenue from contracts with third parties and unconsolidated affiliates for property management, leasing, development and other services. These contracts are accounted for on a month-to-month basis if the agreement does not contain substantive penalties for termination. The majority of the Company's contracts with customers are accounted for on a month-to-month basis. The standalone selling price of each performance obligation is determined based on the terms of the contract, which typically assign a price to each performance obligation that directly relates to the value the customer receives for the services being provided. These contracts generally are for the following:

- Management fees - Management fees are charged as a percentage of revenues (as defined in the contract) and recognized as revenue over time as services are provided.
- Leasing fees - Leasing fees are charged for newly executed leases and lease renewals and are recognized as revenue upon lease execution, when the performance obligation is completed. In cases for which the agreement specifies 50% of the leasing commission will be paid upon lease execution with the remainder paid when the tenant opens, the Company estimates the amount of variable consideration it expects to receive by evaluating the likelihood of tenant openings using the most likely amount method and records the amount as an unbilled receivable (contract asset).
- Development fees - Development fees may be either set as a fixed rate in a separate agreement or be a variable rate based on a percentage of work costs. Variable consideration related to development fees is generally recognized over time using the cost-to-cost method of measurement because it most accurately depicts the Company's performance in satisfying the performance obligation. Contract estimates are based on various assumptions including the cost and availability of materials, anticipated performance and the complexity of the work to be performed. The cumulative catch-up method is used to recognize any adjustments in variable consideration estimates. Under this method, any adjustment is recognized in the period it is identified.

Development and leasing fees received from an unconsolidated affiliate are recognized as revenue only to the extent of the third-party partner's ownership interest. The Company's share of such fees is recorded as a reduction to the Company's investment in the unconsolidated affiliate.

Marketing revenues

The Company earns marketing revenues from advertising and sponsorship agreements. These fees may be for tangible items in which the Company provides advertising services and creates signs and other promotional materials for the tenant or may be arrangements in which the customer sponsors a play area or event and receives specified brand recognition and other benefits over a set period of time. Revenue related to advertising services is recognized as goods and services are provided to the customer. Sponsorship revenue is recognized on a straight-line basis over the time period specified in the contract.

Performance obligations

A performance obligation is a promise in a contract to transfer a distinct good or service to a customer. If the contract does not specify the revenue by performance obligation, the Company allocates the transaction price to each performance obligation based on its relative standalone selling price. Such prices are generally determined using prices charged to customers or using the Company's expected cost plus margin. Revenue is recognized as the Company's performance obligations are satisfied over time, as services are provided, or at a point in time, such as leasing a space to earn a commission. Open performance obligations are those in which the Company has not fully or has partially provided the applicable good or services to the customer as specified in the contract. If consideration is received in advance of the Company's performance, including amounts which are refundable, recognition of revenue is deferred until the performance obligation is satisfied or amounts are no longer refundable.

Practical Expedients

The Company does not disclose the value of open performance obligations for (1) contracts with an original expected duration of one year or less and (2) contracts for which the Company recognizes revenue at the amount to which the Company has the right to invoice, which primarily relate to services performed for certain operating expense reimbursements and management, leasing and development activities, as described above. Performance obligations related to pro rata operating expense reimbursements for certain noncancellable contracts are disclosed below.

Outstanding Performance Obligations

The Company has outstanding performance obligations related to certain noncancellable contracts with customers for which it will receive fixed operating expense reimbursements for providing certain maintenance and other services as described above. As of June 30, 2019, the Company expects to recognize these amounts as revenue over the following periods:

Performance obligation	Less than 5 years	5-20 years	Over 20 years	Total
Fixed operating expense reimbursements	\$ 25,233	\$ 48,825	\$ 48,226	\$ 122,284

The Company evaluates its performance obligations each period and makes adjustments to reflect any known additions or cancellations. Performance obligations related to variable consideration which is based on sales is constrained.

Note 4 – Leases

Adoption of ASU 2016-02, and all related subsequent amendments

The Company adopted ASC 842 (which includes ASU 2016-02 and all related subsequent amendments) on January 1, 2019 and applied the guidance to leases that commenced on or after January 1, 2019. Historical amounts for prior periods were not adjusted and will continue to be reported using the guidance in ASC 840, *Leases*.

To determine whether a contract contains a lease, the Company evaluated its contracts and verified that there was an identified asset and that the Company, or the tenant, has the right to obtain substantially all the economic benefits from the use of the asset throughout the contract term. If a contract is determined to contain a lease, the lease is evaluated to determine whether it is an operating or financing lease, if the Company is the lessee, or the lease is evaluated to determine whether it is an operating, direct financing or sales-type lease, if the Company is the lessor. After determining that the contract contains a lease, the Company identified the lease component and any nonlease components associated with that lease component, and through the Company's election to combine lease and nonlease components for all asset classes, combined the components into a single lease component within each applicable lease where the Company is the lessor.

The discount rate to be used for each lease was determined by assessing the Company's debt information, assessing the credit rating of the Company and the Company's debt, estimating a synthetic "secured" credit rating for the Company and estimating an appropriate incremental borrowing rate. Rental expense for lease payments related to operating leases is recognized on a straight-line basis over the lease term.

See [Note 2](#) for additional information about these accounting standards.

Rental Revenues

The majority of the Company's revenues are earned through the lease of space at its properties. All of the Company's leases with tenants for the use of space at our properties are classified as operating leases. Rental revenues include minimum rent, percentage rent, other rents and reimbursements from tenants for real estate taxes, insurance, common area maintenance ("CAM") and other operating expenses as provided in the lease agreements. The option to extend or terminate our leases is specific to each underlying tenant agreement. Typically, the Company's leases contain penalties for early termination. The Company doesn't have any leases that convey the right for the lessee to purchase the leased asset.

Minimum rental revenue from operating leases is recognized on a straight-line basis over the initial terms of the related leases. Certain tenants are required to pay percentage rent if their sales volumes exceed thresholds specified in their lease agreements. Percentage rent is recognized as revenue when the thresholds are achieved and the amounts become determinable.

The Company receives reimbursements from tenants for real estate taxes, insurance, CAM and other recoverable operating expenses as provided in the lease agreements. Any tenant reimbursements that require fixed payments are recognized on a straight-line basis over the initial terms of the related leases, whereas any variable payments are recognized when earned in accordance with the tenant lease agreements. Tenant reimbursements related to certain capital expenditures are billed to tenants over periods of 5 to 15 years.

Additionally, ASU 2018-19 clarifies that operating lease receivables are within the scope of ASC 842. Therefore, in conjunction with our adoption of ASC 842 on January 1, 2019, the Company began recognizing changes in the collectability assessment of its operating lease receivables as a reduction of rental revenues, rather than as a property operating expense. As a result, the Company recognized \$152 and \$1,692 of uncollectable operating lease receivables as a reduction of rental revenues for the three months and six months ended June 30, 2019, respectively, and recognized \$745 and \$2,786 of uncollectable operating lease receivables as a property operating expense for the three months and six months ended June 30, 2018, respectively.

The components of rental revenues are as follows:

	Three Months Ended June 30, 2019	Six Months Ended June 30, 2019
Fixed lease payments	\$ 151,730	\$ 311,002
Variable lease payments	33,663	65,371
Total rental revenues	\$ 185,393	\$ 376,373

The undiscounted future fixed lease payments to be received under the Company's operating leases as of June 30, 2019, are as follows:

Years Ending December 31,	Operating Leases
2019 (1)	\$ 276,503
2020	518,603
2021	450,475
2022	373,187
2023	307,880
2024	239,693
Thereafter	593,446
Total undiscounted lease payments	\$ 2,759,787

(1) Reflects rental payments for the fiscal period July 1, 2019 through December 31, 2019.

As required by the Comparative Under ASC 840 Option, which is a transitional amendment that allows for the presentation of comparative periods in the year of adoption under ASC 840 (the former leasing guidance), the Company's future minimum rental income from lessees under non-cancellable operating leases where the Company is the lessor as of December 31, 2018 is also presented below:

Years Ending December 31,	Operating Leases
2019	\$ 497,014
2020	426,228
2021	363,482
2022	294,441
2023	234,191
Thereafter	531,792
Total	\$ 2,347,148

Lessee

The Company has eight ground leases and one office lease in which it is a lessee. The maturities of these leases range from 2021 to 2089 and generally provide for renewal options ranging from five to ten years. We included the renewal options in our lease terms for purposes of calculating our lease liability and ROU asset because we have no plans to cease operating our assets associated with each ground lease. The ground leases relate to properties where the Company owns the buildings and improvements, but leases the underlying land. The lease payments on the majority of the ground leases are fixed, but in the instances where they are variable they are either based on the CPI index or a percentage of sales. The one office lease is subleased as of June 30, 2019. As of June 30, 2019, these leases have a weighted-average remaining lease term of 39.3 years and a weighted-average discount rate of 8.0%.

The Company's ROU asset and lease liability are presented in the condensed consolidated balance sheets within intangible lease assets and other assets and accounts payable and accrued liabilities, respectively. A summary of the Company's ROU asset and lease liability activity during the six months ended June 30, 2019 is presented below:

	ROU Asset	Lease Liability
Balance as of January 1, 2019	\$ 4,160	\$ 4,074
Cash reduction	(242)	(242)
Noncash increase	127	210
Balance as of June 30, 2019	<u>\$ 4,045</u>	<u>\$ 4,042</u>

The components of lease expense are presented below:

	Three Months Ended June 30, 2019	Six Months Ended June 30, 2019
Lease expense:		
Operating lease expense	\$ 207	\$ 425
Variable lease expense	(2)	30
Rent Expense	<u>\$ 205</u>	<u>\$ 455</u>

The undiscounted future lease payments to be paid under the Company's operating leases as of June 30, 2019, are as follows:

Year Ending December 31,	Operating Leases
2019 (1)	\$ 317
2020	567
2021	608
2022	332
2023	284
2024	263
Thereafter	12,019
Total undiscounted lease payments	<u>\$ 14,390</u>
Less imputed interest	(10,348)
Lease Liability	<u>\$ 4,042</u>

(1) Reflects rental payments for the fiscal period July 1, 2019 through December 31, 2019.

Table of Contents

As required by the Comparative Under ASC 840 Option, which is a transitional amendment that allows for the presentation of comparative periods in the year of adoption under ASC 840 (the former leasing guidance), the Company's future obligations to be paid under the Company's operating leases where the Company is the lessee as of December 31, 2018 is also presented below:

2019	\$	504
2020		610
2021		517
2022		321
2023		281
Thereafter		12,297
	\$	<u>14,530</u>

Practical Expedients

In regard to leases that commenced before January 1, 2019, the Company elected to use a package of practical expedients to not reassess whether any expired or existing contracts are or contain a lease, to not reassess lease classification for any expired or existing leases, and to not reassess initial direct costs for any existing leases. The Company also elected a practical expedient to not assess whether existing or expired land easements that were not previously accounted for as leases under ASC 840 are or contain a lease under ASC 842. Additionally, the Company elected a practical expedient by class of underlying asset applied to all leases to elect not to separate lease and nonlease components as long as the lease and at least one nonlease component have the same timing and pattern of transfer and the lease is classified as an operating lease. The combined component is being accounted for under ASC 842. The Company made an accounting policy election to exclude sales and other similar taxes from revenues, and instead account for them as costs of the lessee. Lastly, the Company has elected not to apply the recognition requirements of ASC 842 to short-term leases.

See [Note 2](#) for additional information about these accounting standards.

Note 5 – Fair Value Measurements

The Company has categorized its financial assets and financial liabilities that are recorded at fair value into a hierarchy in accordance with ASC 820, *Fair Value Measurements and Disclosure*, ("ASC 820") based on whether the inputs to valuation techniques are observable or unobservable. The fair value hierarchy contains three levels of inputs that may be used to measure fair value as follows:

- Level 1 – Inputs represent quoted prices in active markets for identical assets and liabilities as of the measurement date.
- Level 2 – Inputs, other than those included in Level 1, represent observable measurements for similar instruments in active markets, or identical or similar instruments in markets that are not active, and observable measurements or market data for instruments with substantially the full term of the asset or liability.
- Level 3 – Inputs represent unobservable measurements, supported by little, if any, market activity, and require considerable assumptions that are significant to the fair value of the asset or liability. Market valuations must often be determined using discounted cash flow methodologies, pricing models or similar techniques based on the Company's assumptions and best judgment.

The asset or liability's fair value within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Under ASC 820, fair value measurements are determined based on the assumptions that market participants would use in pricing the asset or liability in an orderly transaction at the measurement date and under current market conditions. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs and consider assumptions such as inherent risk, transfer restrictions and risk of nonperformance.

Fair Value Measurements on a Recurring Basis

The carrying values of cash and cash equivalents, receivables, accounts payable and accrued liabilities are reasonable estimates of their fair values because of the short-term nature of these financial instruments. Based on the interest rates for similar financial instruments, the carrying value of mortgage and other notes receivable is a reasonable estimate of fair value. The estimated fair value of mortgage and other indebtedness was \$3,479,729 and \$3,740,431 at June 30, 2019 and December 31, 2018, respectively. The fair value was calculated using Level 2 inputs by discounting future cash flows for mortgage and other indebtedness using estimated market rates at which similar loans would be made currently.

Fair Value Measurements on a Nonrecurring Basis

The Company measures the fair value of certain long-lived assets on a nonrecurring basis, through quarterly impairment testing or when events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. The Company considers both quantitative and qualitative factors in its impairment analysis of long-lived assets. Significant quantitative factors include historical and forecasted information for each property such as net operating income ("NOI"), occupancy statistics and sales levels. Significant qualitative factors used include market conditions, age and condition of the property and tenant mix. Due to the significant unobservable estimates and assumptions used in the valuation of long-lived assets that experience impairment, the Company classifies such long-lived assets under Level 3 in the fair value hierarchy. Level 3 inputs primarily consist of sales and market data, independent valuations and discounted cash flow models.

Long-lived Assets Measured at Fair Value in 2019

The following table sets forth information regarding the Company's assets that are measured at fair value on a nonrecurring basis and related impairment charges for the six months ended June 30, 2019:

	Fair Value Measurements at Reporting Date Using				Total Loss on Impairment
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Long-lived assets	\$ 127,319	\$ —	\$ —	\$ 127,319	\$ 66,433

During the six months ended June 30, 2019, the Company recognized an impairment of real estate of \$66,662 related to three malls and one community center.

Impairment Date	Property	Location	Segment Classification	Loss on Impairment	Fair Value
March	Greenbrier Mall (1)	Chesapeake, VA	Mall	\$ 22,770	\$ 56,300
March/April	Honey Creek Mall (2)	Terre Haute, IN	Mall	2,045	14,360
June	The Forum at Grandview (3)	Madison, MS	All Other	8,582	31,559
June	EastGate Mall (4)	Cincinnati, OH	Mall	33,265	25,100
January/March	Other adjustments (5)	Various	Mall	(229)	—
				\$ 66,433	\$ 127,319

- (1) In accordance with the Company's quarterly impairment process, the Company wrote down the book value of the mall to its estimated fair value of \$56,300. The mall has experienced a decline in cash flows due to store closures and rent reductions. Additionally, one anchor was vacant as of the date of impairment. Management determined the fair value of Greenbrier Mall using a discounted cash flow methodology. The discounted cash flow used assumptions including a holding period of ten years, with a sale at the end of the holding period, a capitalization rate of 11.0% and a discount rate 11.5%.
- (2) During the quarter ended March 31, 2019, the Company adjusted the book value of the mall to the net sales price of \$14,360 based on a signed contract with a third party buyer, adjusted to reflect estimated disposition costs. The mall was sold in April 2019 and \$(239) was recorded related to a true-up of closing costs. See [Note 6](#) for additional information.
- (3) The Company adjusted the book value to the net sales price of \$31,559 based on a signed contract with a third party buyer, adjusted to reflect estimated disposition costs. The property was classified as held for sale at June 30, 2019 and was sold in July 2019. See [Note 6](#) for additional information.

- (4) In accordance with the Company's quarterly impairment process, the Company wrote down the book value of the mall to its estimated fair value of \$25,100. The mall has experienced a decline in cash flows due to store closures and rent reductions. Management determined the fair value of EastGate Mall using a discounted cash flow methodology. The discounted cash flow used assumptions including a holding period of ten years, with a sale at the end of the holding period, a capitalization rate of 14.5% and a discount rate 15.0%.
- (5) Related to true-ups of estimated expenses to actual expenses for properties sold in prior periods.

Long-lived Assets Measured at Fair Value in 2018

The following table sets forth information regarding the Company's assets that were measured at fair value on a nonrecurring basis and related impairment charges for the six months ended June 30, 2018:

	Fair Value Measurements at Reporting Date Using				Total Loss on Impairment
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Long-lived assets	\$ 34,000	\$ —	\$ —	\$ 34,000	\$ 70,044

During the six months ended June 30, 2018, the Company recognized an impairment of real estate of \$70,044 related to two malls:

Impairment Date	Property	Location	Segment Classification	Loss on Impairment	Fair Value
March	Janesville Mall (1)	Janesville, WI	Malls	\$ 18,061	\$ — (2)
June	Cary Towne Center (3)	Cary, NC	Malls	51,983	34,000
				\$ 70,044	\$ 34,000

- (1) The Company adjusted the book value of the mall to the net sales price of \$17,640 in a signed contract with a third party buyer, adjusted to reflect estimated disposition costs. The mall was sold in July 2018. See [Note 6](#) for additional information.
- (2) The long-lived asset was not included in the Company's condensed consolidated balance sheets at December 31, 2018 as the Company no longer had an interest in the property.
- (3) In June 2018, the Company was notified by IKEA that, as a result of a shift in its corporate strategy, it was terminating the contract to purchase land at the mall upon which it would develop and open a store. Under the terms of the interest-only non-recourse loan secured by the mall, the loan matures on the date the IKEA contract terminates if that date is prior to the scheduled maturity date of March 5, 2019. The Company engaged in conversations with the lender regarding a potential restructure of the loan. Based on the results of these conversations, the Company concluded that an impairment was required because it was unlikely to recover the asset's net carrying value through future cash flows. Management determined the fair value of Cary Towne Center using a discounted cash flow methodology. The discounted cash flow used assumptions including a 10-year holding period, a capitalization rate of 12.0% and a discount rate of 13%. See [Note 8](#) for additional information.

Note 6 – Dispositions and Held for Sale

The Company evaluates its disposals utilizing the guidance in ASU 2014-08, *Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*. Based on its analysis, the Company determined that the dispositions described below do not meet the criteria for classification as discontinued operations and are not considered to be significant disposals based on its quantitative and qualitative evaluation. Thus, the results of operations of the properties described below, as well as any related gains or losses, are included in net income for all periods presented, as applicable.

2019 Dispositions

Net proceeds realized from the 2019 dispositions listed below were used to reduce the outstanding balance on the Company's credit facility. The following is a summary of the Company's 2019 dispositions:

Sales Date	Property	Property Type	Location	Sales Price		Gain
				Gross	Net	
April	Honey Creek Mall (1)	Mall	Terre Haute, IN	\$ 14,600	\$ 14,360	\$ —
April	The Shoppes at Hickory Point	Mall	Forsyth, IL	2,508	2,407	1,326
June	Courtyard by Marriott at Pearland Town Center	All Other	Pearland, TX	15,100	14,795	1,910
				\$ 32,208	\$ 31,562	\$ 3,236

(1) The Company recognized a loss on impairment of \$2,284 in March 2019 when it adjusted the book value of the mall to the net sales price based on a signed contract with a third party buyer and recognized \$(239) in April 2019 related to a true-up of closing costs. See [Note 5](#) for additional information.

The Company also realized gains of \$2,100 related to the sale of one outparcel and \$433 related to land contributed in the formation of the Parkdale Self Storage, LLC joint venture (See [Note 7](#) for additional information) during the three and six months ended June 30, 2019. Also, the Company realized losses of \$(242) and \$(14) related to costs incurred during the three and six months ended June 30, 2019, respectively, for outparcel sales that occurred in prior periods.

The Company recognized a gain on extinguishment of debt for the properties listed below, which represented the amount by which the outstanding debt balance exceeded the net book value of the property as of the transfer date. See [Note 8](#) for more information. The following is a summary of these dispositions:

Sale/Transfer Date	Property	Property Type	Location	Balance of Non-recourse Debt	Gain on Extinguishment of Debt
January	Acadiana Mall (1)	Mall	Lafayette, LA	\$ 119,760	\$ 61,796
January	Cary Towne Center (2)	Mall	Cary, NC	43,716	9,926
				\$ 163,476	\$ 71,722

(1) The Company transferred title to the mall to the mortgage holder in satisfaction of the non-recourse debt secured by the property. A loss on impairment of real estate of \$43,007 was recorded in 2017 to write down the book value of the mall to its then estimated fair value. The Company also recorded \$305 of aggregate non-cash default interest expense during the first quarter of 2019.

(2) The Company sold the mall for \$31,500 and the net proceeds from the sale were used to satisfy a portion of the loan secured by the mall. The remaining principal balance was forgiven. The Company recorded a loss on impairment of real estate of \$54,678 during 2018 to write down the book value of the mall to its then estimated fair value. The Company also recorded \$237 of aggregate non-cash default interest expense during the first quarter of 2019.

In a separate transaction, the Company also sold an anchor store parcel and vacant land at Acadiana Mall, which were not collateral on the loan, for a cash price of \$4,000. A loss on impairment of real estate of \$1,593 was recorded in 2018 to write down the book value of the anchor store parcel and vacant land to its then estimated fair value.

2019 Held for Sale

The following properties were classified as held for sale as of June 30, 2019:

Property	Property Type	Location	Total Assets	Total Liabilities	Percentage of the Company's Total Assets
850 Greenbrier Circle (1)	All Other	Chesapeake, VA	\$ 10,233	\$ 35	0.2%
Foothills Plaza - Kroger (1)	All Other	Maryville, TN	1,091	—	—%

High Point - Barnes & Noble (1)	All Other	High Point, NC	1,055	59	—%
			\$ 44,574	\$ 663	

(1) The property was sold subsequent to June 30, 2019. See [Note 15](#) for additional information.

Note 7 – Unconsolidated Affiliates and Noncontrolling Interests

Unconsolidated Affiliates

Although the Company had majority ownership of certain joint ventures during 2019 and 2018, it evaluated the investments and concluded that the other partners or owners in these joint ventures had substantive participating rights, such as approvals of:

- the pro forma for the development and construction of the project and any material deviations or modifications thereto;
- the site plan and any material deviations or modifications thereto;
- the conceptual design of the project and the initial plans and specifications for the project and any material deviations or modifications thereto;
- any acquisition/construction loans or any permanent financings/refinancings;
- the annual operating budgets and any material deviations or modifications thereto;
- the initial leasing plan and leasing parameters and any material deviations or modifications thereto; and
- any material acquisitions or dispositions with respect to the project.

As a result of the joint control over these joint ventures, the Company accounts for these investments using the equity method of accounting.

At June 30, 2019, the Company had investments in 22 entities, which are accounted for using the equity method of accounting. The Company's ownership interest in these unconsolidated affiliates ranges from 10.0% to 65.0%. Of these entities, 15 are owned in 50/50 joint ventures.

2019 Activity - Unconsolidated Affiliates

Bullseye, LLC

In September 2018, the Company entered into a joint venture, Bullseye, LLC, to develop a vacant land parcel adjacent to Hamilton Corner in Chattanooga, TN. During January 2019, the joint venture closed on the purchase of the land parcel for a gross purchase price of \$3,310. The Company has a 20% membership interest in the joint venture. Additionally, the Company made no initial investment and has no future funding obligations. The unconsolidated affiliate is a variable interest entity ("VIE").

Parkdale Self Storage, LLC

In May 2019, the Company entered into a 50/50 joint venture, Parkdale Self Storage, LLC, to develop a self-storage facility adjacent to Parkdale Mall. The Company recorded a \$433 gain on sale of real estate assets related to land that it contributed to the joint venture. The unconsolidated affiliate is a VIE. See additional information in *Variable Interest Entities* below. In conjunction with the formation of the joint venture, the unconsolidated affiliate closed on a construction loan. See details below under *2019 Financings*.

Financings - Unconsolidated Affiliates

All of the debt on the properties owned by the unconsolidated affiliates is non-recourse, except for debt secured by Ambassador Infrastructure, Hammock Landing, The Pavilion at Port Orange, The Shoppes at Eagle Point and the self-storage developments adjacent to EastGate Mall, Mid Rivers Mall and Parkdale Mall. See [Note 12](#) for a description of guarantees the Operating Partnership has issued related to these unconsolidated affiliates.

2019 Financings

The Company's unconsolidated affiliates had the following loan activity in 2019:

Date	Property	Stated Interest Rate	Maturity Date	Amount Financed or Extended
May	Parkdale Self Storage (1)	5.25% (2)	July 2024	\$ 6,500

(1) Parkdale Self Storage, LLC, a 50/50 joint venture, closed on a construction loan with a total borrowing capacity of up to \$6,500 for the development of a climate controlled self-storage facility adjacent to Parkdale Mall in Beaumont, TX. There were no draws on the construction loan at June 30, 2019. The Operating Partnership has a joint and several guaranty with its 50/50 partner. Therefore, the maximum guarantee is 100% of the loan. See [Note 12](#) for more information.

(2) The interest rate is variable and is the greater of 5.25% or LIBOR + 2.80%.

Noncontrolling Interests

Noncontrolling interests consist of the following:

	As of	
	June 30, 2019	December 31, 2018
Noncontrolling interests:		
Operating Partnership	\$ 41,559	\$ 55,917
Other consolidated subsidiaries	13,222	12,111
	<u>\$ 54,781</u>	<u>\$ 68,028</u>

Variable Interest Entities

In accordance with the guidance in ASU 2015-02, *Amendments to the Consolidation Analysis*, and ASU 2016-17, *Interests Held Through Related Parties That Are under Common Control*, the Operating Partnership and certain of its subsidiaries are deemed to have the characteristics of a VIE primarily because the limited partners of these entities do not collectively possess substantive kick-out or participating rights.

The Company consolidates the Operating Partnership, which is a VIE, for which the Company is the primary beneficiary. The Company, through the Operating Partnership, consolidates all VIEs for which it is the primary beneficiary. Generally, a VIE is a legal entity in which the equity investors do not have the characteristics of a controlling financial interest or the equity investors lack sufficient equity at risk for the entity to finance its activities without additional subordinated financial support. A limited partnership is considered a VIE when the majority of the limited partners unrelated to the general partner possess neither the right to remove the general partner without cause, nor certain rights to participate in the decisions that most significantly affect the financial results of the partnership. In determining whether the Company is the primary beneficiary of a VIE, the Company considers qualitative and quantitative factors, including, but not limited to: which activities most significantly impact the VIE's economic performance and which party controls such activities; the amount and characteristics of the Company's investment; the obligation or likelihood for the Company or other investors to provide financial support; and the similarity with and significance to the Company's business activities and the business activities of the other investors.

Consolidated VIEs

As of June 30, 2019, the Company had investments in 19 consolidated VIEs with ownership interests ranging from 50% to 95%.

Unconsolidated VIEs

The table below lists the Company's unconsolidated VIEs as of June 30, 2019:

	Investment in Real Estate Joint Ventures and Partnerships	Maximum Risk of Loss
Ambassador Infrastructure, LLC (1)	\$ —	\$ 10,050
Bullseye, LLC	5	5
EastGate Storage, LLC (2)	939	3,000

Self-Storage at Mid Rivers, LLC (2)	912	2,717
Shoppes at Eagle Point, LLC (5)	16,344	16,344

- (1) The debt is guaranteed by the Operating Partnership at 100%. See [Note 12](#) for more information.
- (2) The debt is guaranteed by the Operating Partnership at 50%. See [Note 12](#) for more information.
- (3) In conjunction with a loss on impairment recorded in September 2018, the Company wrote down its investment in the unconsolidated 90/10 joint venture to zero. The maximum risk of loss is limited to the basis, which is zero. Subsequent to June 30, 2019, the lender foreclosed on the loan that is secured by the property. See [Note 15](#) for more information.
- (4) The Operating Partnership has a joint and several guaranty with its 50/50 partner. Therefore, the maximum guarantee is 100% of the loan. See [Note 12](#) for more information.
- (5) The debt is guaranteed by the Operating Partnership at a fixed amount of \$12,740. See [Note 12](#) for more information.

Note 8 – Mortgage and Other Indebtedness, Net

Debt of the Company

CBL has no indebtedness. Either the Operating Partnership or one of its consolidated subsidiaries, that it has a direct or indirect ownership interest in, is the borrower on all of the Company's debt. CBL is a limited guarantor of the Senior Unsecured Notes (the "Notes"), as described below, for losses suffered solely by reason of fraud or willful misrepresentation by the Operating Partnership or its affiliates.

The Company also provides a similar limited guarantee of the Operating Partnership's obligations with respect to its secured credit facility and secured term loan as of June 30, 2019.

Debt of the Operating Partnership

Net mortgage and other indebtedness consisted of the following:

	June 30, 2019		December 31, 2018

(1) Weighted-average interest rate includes the effect of debt premiums and discounts, but excludes amortization of deferred financing costs.

(2) The balance is net of an unamortized discount of \$2,344 and \$2,577 as of June 30, 2019 and December 31, 2018, respectively.

(3) The balance is net of an unamortized discount of \$44 and \$47 as of June 30, 2019 and December 31, 2018, respectively.

(4) The balance is net of an unamortized discount of \$7,952 and \$8,365 as of June 30, 2019 and December 31, 2018, respectively.

(5) Represents a non-recourse mortgage loan secured by Cary Towne Center that was classified on the condensed consolidated balance sheet as liabilities related to assets held for sale as of December 31, 2018.

Senior Unsecured Notes

Description	Issued (1)	Amount	Interest Rate (2)	Maturity Date (3)
2023 Notes	November 2013	\$ 450,000	5.25%	December 2023
2024 Notes	October 2014	300,000	4.60%	October 2024
2026 Notes	December 2016 / September 2017	625,000	5.95%	December 2026

- (1) Issued by the Operating Partnership. CBL is a limited guarantor of the Operating Partnership's obligations under the Notes as described above.
- (2) Interest is payable semiannually in arrears. The interest rate for the 2024 Notes and the 2023 Notes is subject to an increase ranging from 0.25% to 1.00% from time to time if, on or after January 1, 2016 and prior to January 1, 2020, the ratio of secured debt to total assets of the Company, as defined, is greater than 40% but less than 45%. The required ratio of secured debt to total assets for the 2026 Notes is 40% or less. As of June 30, 2019, this ratio was 34% as shown below.
- (3) The Notes are redeemable at the Operating Partnership's election, in whole or in part from time to time, on not less than 30 days and not more than 60 days' notice to the holders of the Notes to be redeemed. The 2026 Notes, the 2024 Notes and the 2023 Notes may be redeemed prior to September 15, 2026, July 15, 2024, and September 1, 2023, respectively, for cash at a redemption price equal to the aggregate principal amount of the Notes to be redeemed, plus accrued and unpaid interest to, but not including, the redemption date and a make-whole premium calculated in accordance with the indenture. On or after the respective dates noted above, the Notes are redeemable for cash at a redemption price equal to the aggregate principal amount of the Notes to be redeemed plus accrued and unpaid interest. If redeemed prior to the respective dates noted above, each issuance of Notes is redeemable at the treasury rate plus 0.50%, 0.35% and 0.40% for the 2026 Notes, the 2024 Notes and the 2023 Notes, respectively.

Senior Secured Credit Facility

In January 2019, the Company entered into a new \$1,185,000 senior secured credit facility, which included a fully-funded \$500,000 term loan and a revolving line of credit with a borrowing capacity of \$685,000. The facility replaced all of the Company's prior unsecured bank facilities, which included three unsecured term loans with an aggregate balance of \$695,000 and three unsecured revolving lines of credit with an aggregate capacity of \$1,100,000. At closing, the Company utilized the line of credit to reduce the principal balance of the unsecured term loan from \$695,000 to \$500,000. The facility matures in July 2023 and bears interest at a variable rate of LIBOR plus 225 basis points. The facility had an interest rate of 4.69% at June 30, 2019. The Operating Partnership is required to pay an annual facility fee, to be paid quarterly, which ranges from 0.25% to 0.35%, based on the unused capacity of the line of credit. The principal balance on the term loan will be reduced by \$35,000 per year in quarterly installments. At June 30, 2019, the secured line of credit had an outstanding balance of \$383,084 and the secured term loan had an outstanding balance of \$482,500.

The secured credit facility is secured by 17 malls and 3 associated centers that are owned by 36 wholly owned subsidiaries of the Operating Partnership (collectively the "Combined Guarantor Subsidiaries"). The Combined Guarantor Subsidiaries own an additional five malls, two associated centers and four mortgage notes receivable that are not collateral for the secured credit facility. The properties that are collateral for the secured credit facility and the properties and mortgage notes receivable that are not collateral are collectively referred to as the "Guarantor Properties." The terms of the Notes provide that, to the extent that any subsidiary of the Operating Partnership executes and delivers a guarantee to another debt facility, the Operating Partnership shall also cause the subsidiary to guarantee the Operating Partnership's obligations under the Notes on a senior basis. In January 2019, the Combined Guarantor Subsidiaries entered into a guarantee agreement with the issuer of the Notes to satisfy the guaranty requirement.

Each of the Combined Guarantor Subsidiaries meet the criteria in Rule 3-10(f) of SEC Regulation S-X to provide condensed consolidating financial information as additional disclosure in the notes to the Operating Partnership's condensed consolidated financial statements because each Combined Guarantor Subsidiary is 100% owned by the Operating Partnership, the guaranty issued by each Combined Guarantor Subsidiary is full and unconditional and the guaranty issued by each Combined Guarantor Subsidiary is joint and several. However, the Operating Partnership has elected to provide combined financial statements and accompanying notes for the Combined Guarantor Subsidiaries in lieu of including the condensed consolidating financial information in the notes to its condensed consolidated financial statements. These combined financial statements and notes are presented as an exhibit to this quarterly report on Form 10-Q for ease of reference.

Financial Covenants and Restrictions

The agreements for the Notes and the senior secured credit facility contain, among other restrictions, certain financial covenants including the maintenance of certain financial coverage ratios, minimum unencumbered asset and interest ratios, maximum secured indebtedness ratios, maximum total indebtedness ratios and limitations on cash flow distributions. The Company believes that it was in compliance with all financial covenants and restrictions at June 30, 2019.

[Table of Contents](#)

The following presents the Company's compliance with key covenant ratios, as defined, of the Notes and the senior secured credit facility as of June 30, 2019:

Ratio	Required	Actual
Total debt to total assets	< 60%	52%
Secured debt to total assets	< 40% (1)	34%
Total unencumbered assets to unsecured debt	> 150%	191%
Consolidated income available for debt service to annual debt service charge	> 1.5x	2.3x

(1) Secured debt to total assets must be less than 40% for the 2026 Notes. Secured debt to total assets must be less than 45% for the 2023 Notes and the 2024 Notes until January 1, 2020, after which the required ratio will be reduced to 40%.

The agreements for the Notes and senior secured credit facility described above contain default provisions customary for transactions of this nature (with applicable customary grace periods). Additionally, any default in the payment of any recourse indebtedness greater than or equal to \$50,000 of the Operating Partnership will constitute an event of default under the Notes.

Mortgages on Operating Properties

2019 Financings

In April 2019, the loan secured by Volusia Mall was refinanced to increase the principal balance to \$50,000. In addition, the maturity date was extended to April 2024 and the fixed interest rate was reduced from 8.00% to 4.56%. The net proceeds from the new loan were used to retire the \$41,000 existing loan.

In May 2019, the Company exercised an option to extend the loan secured by The Outlet Shoppes at Laredo to May 2021. In conjunction with the amendment, a payment of \$10,800 was made to reduce the outstanding balance of the loan to \$43,000. The noncontrolling interest partner in the joint venture funded its 35% share of the \$10,800 payment.

2019 Loan Repayments

Date	Property	Interest Rate at Repayment Date	Scheduled Maturity Date	Principal Balance Repaid
April	Honey Creek Mall (1)	8.00%	July 2019	\$ 23,539

(1) The Company retired the loan using proceeds from the refinancing of the loan secured by Volusia Mall as well as proceeds from the sale of Honey Creek Mall.

2019 Dispositions

The following is a summary of the Company's 2019 dispositions for which the fixed-rate loan secured by the mall was extinguished:

Transfer Date	Property	Interest Rate at Repayment Date	Scheduled Maturity Date	Balance of Non-recourse Debt	Gain on Extinguishment of Debt
January	Acadiana Mall (1)	5.67%	April 2017	\$ 119,760	\$ 61,795
January	Cary Towne Center (2)	4.00%	June 2018	43,716	9,927
				\$ 163,476	\$ 71,722

(1) The Company transferred title to the mall to the mortgage holder in satisfaction of the non-recourse debt secured by the property.

(2) The Company sold the mall for \$31,500 and the net proceeds from the sale were used to satisfy a portion of the loan secured by the mall. The remaining principal balance was forgiven.

Scheduled Principal Payments

As of June 30, 2019, the scheduled principal amortization and balloon payments of the Company's consolidated debt, excluding extensions available at the Company's option, on all mortgage and other indebtedness, including construction loans and lines of credit, are as follows:

2019 (1)	\$ 139,396
2020	247,495

(1) Reflects payments for the fiscal period July 1, 2019 through December 31, 2019.

Of the \$139,396 of scheduled principal payments in 2019, \$98,256 relates to the maturing principal balance of three operating property loans.

The Company's mortgage and other indebtedness had a weighted-average maturity of 4.3 years as of June 30, 2019 and 3.7 years as of December 31, 2018.

Note 9 – Mortgage and Other Notes Receivable

Each of the Company's mortgage notes receivable is collateralized by either a first mortgage, a second mortgage, or by an assignment of 100% of the partnership interests that own the real estate assets. Other notes receivable include amounts due from tenants or government-sponsored districts and unsecured notes received from third parties as whole or partial consideration for property or investments.

Mortgage and other notes receivable consist of the following:

	Maturity Date	As of June 30, 2019		As of December 31, 2018	
		Interest Rate	Balance	Interest Rate	Balance
Mortgages:

(1) The loan was retired in May 2019.

(2) The note was amended to extend the maturity date subsequent to June 30, 2019. See [Note 15](#) for more information.

(3) Includes a \$1,100 note with D'Iberville Promenade, LLC, with a maturity date of December 2016, that is in default. This is secured by the joint venture partner's interest in the joint venture.

Note 10 – Segment Information

The Company measures performance and allocates resources according to property type, which is determined based on certain criteria such as type of tenants, capital requirements, economic risks, leasing terms, and short and long-term returns on capital. Rental income and tenant reimbursements from tenant leases provide the majority of revenues from all segments.

Information on the Company's segments is presented as follows:

(4) Amounts include acquisitions of real estate assets and investments in unconsolidated affiliates. Developments in progress are included in the All Other category.

Note 11 – Earnings per Share and Earnings per Unit

Earnings per Share of the Company

Basic earnings per share (“EPS”) is computed by dividing net income (loss) attributable to common shareholders by the weighted-average number of common shares outstanding for the period. Diluted EPS assumes the issuance of common stock for all potential dilutive common shares outstanding. The limited partners’ rights to convert their noncontrolling interests in the Operating Partnership into shares of common stock are not dilutive. There were no potential dilutive common shares and there were no anti-dilutive shares for the three and six month periods ended June 30, 2019.

Due to a net loss for the three and six month periods ended June 30, 2018, the computation of diluted EPS does not include contingently issuable shares due to their anti-dilutive nature. Had the Company reported net income for the three months ended June 30, 2018, the denominator for diluted EPS would have been 172,867, including 205 contingently issuable shares related to performance stock unit (“PSU”) awards. Had the Company reported net income for the for the six months ended June 30, 2018, the denominator for diluted EPS would have been 172,715, including 411 contingently issuable shares related to PSU awards.

Earnings per Unit of the Operating Partnership

Basic earnings per unit (“EPU”) is computed by dividing net income (loss) attributable to common unitholders by the weighted-average number of common units outstanding for the period. Diluted EPU assumes the issuance of common units for all potential dilutive common units outstanding. There were no potential dilutive common units and there were no anti-dilutive units for the three and six month periods ended June 30, 2019.

Due to a net loss for the three and six month periods ended June 30, 2018, the computation of diluted EPU does not include contingently issuable units due to their anti-dilutive nature. Had the Operating Partnership reported net income for the three months ended June 30, 2018, the denominator for diluted EPU would have been 199,972, including 205 contingently issuable units related to PSU awards. Had the Operating Partnership reported net income for the for the six months ended June 30, 2018, the denominator for diluted EPU would have been 200,142, including 411 contingently issuable units related to PSU awards.

Note 12 – Contingencies

Litigation

In April 2019, the Company entered into a settlement agreement and release with respect to the class action lawsuit filed on March 16, 2016 in the United States District Court for the Middle District of Florida by Wave Lengths Hair Salons of Florida, Inc. d/b/a Salon Adrian. The settlement agreement states that the Company is to set aside a common fund with a monetary and non-monetary value of \$90,000 to be disbursed to class members in accordance with an agreed-upon formula that is based upon aggregate damages of \$60,000. Class members will be comprised of past and current tenants at certain of the Company’s shopping centers that it owns or formerly owned during the class period, which will extend from January 1, 2011 through the date of court preliminary approval. Class members who are past tenants and make a claim will receive payment of their claims in cash. Class members who are current tenants will receive monthly credits against rents and future charges, beginning no earlier than January 1, 2020 and continuing for the following five years. Any amounts under the settlement allocated to tenants with outstanding amounts payable to the Company, including tenants which have declared bankruptcy or declare bankruptcy over the relevant period, will first be deducted from the amounts owed to the Company. All attorney’s fees and associated costs to be paid to class counsel (up to a maximum of \$28,000), any incentive award to the class representative (up to a maximum of \$50), and class administration costs (which are expected to not exceed \$100), will be funded by the common fund, but must be approved by the court. Under the terms of the settlement agreement, the Company will not pay any dividends to holders of its common shares payable in the third and fourth quarters of 2019. The settlement agreement does not restrict the Company’s ability to declare dividends payable in 2020 or in subsequent years. The Company recorded an accrued liability and corresponding litigation settlement expense of \$88,150 in the three months ended March 31, 2019 related to the settlement agreement.

The Company is currently involved in certain other litigation that arises in the ordinary course of business, most of which is expected to be covered by liability insurance. Management makes assumptions and estimates concerning the likelihood and amount of any potential loss relating to these matters using the latest information available. The Company records a liability for litigation if an unfavorable outcome is probable and the amount of loss or range of loss can be reasonably estimated. If an unfavorable outcome is probable and a reasonable estimate of the loss is a range, the Company accrues the best estimate within the range. If no amount within the range is a better

estimate than any other amount, the Company accrues the minimum amount within the range. If an unfavorable outcome is probable but the amount of the loss cannot be reasonably estimated, the Company discloses the nature of the litigation and indicates that an estimate of the loss or range of loss cannot be made. If an unfavorable outcome is reasonably possible and the estimated loss is material, the Company discloses the nature and estimate of the possible loss of the litigation. Based on current expectations, such matters, both individually and in the aggregate, are not expected to have a material adverse effect on the liquidity, results of operations, business or financial condition of the Company.

Securities Litigation

The Company and certain of its officers and directors have been named as defendants in three putative securities class action lawsuits (collectively, the “Securities Class Action Litigation”), each filed in the United States District Court for the Eastern District of Tennessee, on behalf of all persons who purchased or otherwise acquired the Company’s securities during a specified period of time. The first such lawsuit, captioned *Paskowitz v. CBL & Associates Properties, Inc., et al.*, 1:19-cv-00149-JRG-CHS, was filed on May 17, 2019, and asserts claims on behalf of persons or entities that purchased CBL securities between November 8, 2017 and March 26, 2019, inclusive. The second such lawsuit, captioned *Williams v. CBL & Associates Properties, Inc., et al.*, 1:19-cv-00181, was filed on June 21, 2019, and asserts claims on behalf of persons or entities that purchased CBL securities between April 29, 2016 and March 26, 2019, inclusive. The third such lawsuit, captioned *Merelles v. CBL & Associates Properties, Inc., et al.*, 1:19-CV-00193, was filed on July 2, 2019, and asserts claims on behalf of persons or entities that purchased CBL securities between July 29, 2014 and March 26, 2019. The Court consolidated these cases on July 17, 2019, under the caption *In re CBL & Associates Properties, Inc. Securities Litigation*, 1:19-cv-00149-JRG-CHS. After plaintiff Laurence Paskowitz voluntarily dismissed his case on July 25, 2019, the Court re-consolidated the two remaining cases under the caption *In re CBL & Associates Properties, Inc. Securities Litigation*, 1:19-cv-00181-JRG-CHS, on August 2, 2019.

The complaints filed in the Securities Class Action Litigation allege violations of the securities laws, including, among other things, that the defendants made certain materially false and misleading statements and omissions regarding the Company’s contingent liabilities, business, operations, and prospects during the periods of time specified above. The plaintiffs seek compensatory damages and attorneys’ fees and costs, among other relief, but have not specified the amount of damages sought. The outcome of these legal proceedings cannot be predicted with certainty.

Certain of the Company’s current and former directors and officers have been named as defendants in three shareholder derivative lawsuits (collectively, the “Derivative Litigation”). On June 4, 2019, a shareholder filed a putative derivative complaint captioned *Robert Garfield v. Stephen D. Lebovitz et al.*, 1:19-cv-01038-LPS, in the United States District Court for the District of Delaware (the “Garfield Derivative Action”), purportedly on behalf of the Company against certain of its officers and directors. On June 24, 2019, another shareholder filed a putative derivative complaint captioned *Robert Cohen v. Stephen D. Lebovitz et al.*, 1:19-cv-01185-LPS, also in the United States District Court for the District of Delaware (the “Cohen Derivative Action”), asserting substantially similar claims purportedly on behalf of the Company against similar defendants. The Court consolidated the Garfield Derivative Action and the Cohen Derivative Action on July 17, 2019, under the caption *In re CBL & Associates Properties, Inc. Derivative Litigation*, 1:19-cv-01038-LPS, and on July 19, 2019, the parties jointly moved to stay the case pending resolution of an eventual motion to dismiss in the Securities Class Action Litigation. On July 22, 2019, another shareholder filed a putative derivative complaint captioned *Shebitz v. Lebovitz et al.*, 1:19-cv-00213, in the United States District Court for the Eastern District of Tennessee, asserting substantially similar claims purportedly on behalf of the Company against similar defendants. On July 17, 2019, the Court consolidated the Garfield Derivative Action and the Cohen Derivative Action under the caption *In re CBL & Associates Properties, Inc. Derivative Litigation*, 1:19-cv-01038-LPS. On July 25, 2019, the Court stayed these two actions pending resolution of an eventual motion to dismiss in the related Securities Class Action Litigation.

The complaints filed in the Derivative Litigation allege, among other things, breaches of fiduciary duties, unjust enrichment, waste of corporate assets, and violations of the federal securities laws. The factual allegations upon which these claims are based are similar to the factual allegations made in the Securities Class Action Litigation, described above. The complaints filed in the Derivative Litigation seek, among other things, unspecified damages and restitution for the Company from the individual defendants, the payment of costs and attorneys’ fees, and that the Company be directed to reform certain governance and internal procedures. The outcome of these legal proceedings cannot be predicted with certainty.

The Company’s insurance carriers have been placed on notice of these matters.

Environmental Contingencies

The Company evaluates potential loss contingencies related to environmental matters using the same criteria described above related to litigation matters. Based on current information, an unfavorable outcome concerning such

environmental matters, both individually and in the aggregate, is considered to be reasonably possible. However, the Company believes its maximum potential exposure to loss would not be material to its results of operations or financial condition.

The Company has a master insurance policy that provides coverage through 2022 for certain environmental claims up to \$10,000 per occurrence and up to \$50,000 in the aggregate, subject to deductibles and certain exclusions. At certain locations, individual policies are in place.

Guarantees

The Operating Partnership may guarantee the debt of a joint venture primarily because it allows the joint venture to obtain funding at a lower cost than could be obtained otherwise. This results in a higher return for the joint venture on its investment, and a higher return on the Operating Partnership's investment in the joint venture.

The Operating Partnership may receive a fee from the joint venture for providing the guaranty. Additionally, when the Operating Partnership issues a guaranty, the terms of the joint venture agreement typically provide that the Operating Partnership may receive indemnification from the joint venture partner or have the ability to increase its ownership interest. The guarantees expire upon repayment of the debt, unless noted otherwise.

The following table represents the Operating Partnership's guarantees of unconsolidated affiliates' debt as reflected in the accompanying condensed consolidated balance sheets as of June 30, 2019 and December 31, 2018:

Unconsolidated Affiliate	As of June 30, 2019					Obligation Recorded to Reflect Guaranty

Self-Storage at Mid Rivers, LLC	50%	5,434	50% (6)	2,717	Apr-2023	30	60
Parkdale Self Storage, LLC	50%	—	100% (7)	6,500	Jul-2024	—	—
Total guaranty liability						\$ 843	\$ 1,158

(1) Excludes any extension options.

(2) The loan is secured by Hammock Landing - Phase I and Hammock Landing - Phase II, respectively.

(3) The guaranty is for a fixed amount of \$12,740 throughout the term of the loan, including any extensions.

(4) The loan has one two-year extension option, at the joint venture's election, for an outside maturity date of October 2022.

(5) The guaranty was reduced to 50% once construction was completed during the second quarter of 2019. The guaranty may be further reduced to 25% once certain debt and operational metrics are met.

(6) The Company received a 1% fee for the guaranty when the loan was issued in April 2018. The guaranty was reduced to 50% once construction was completed during the second quarter of 2019. The guaranty may be further reduced to 25% once certain debt and operational metrics are met.

(7) Parkdale Self Storage, LLC, a 50/50 joint venture, closed on a construction loan with a total borrowing capacity of up to \$6,500 for the development of a climate controlled self-storage facility adjacent to Parkdale Mall in Beaumont, TX. The Operating Partnership has a joint and several guaranty with its 50/50 partner. Therefore, the maximum guarantee is 100% of the loan.

The Company has guaranteed the lease performance of York Town Center, LP ("YTC"), an unconsolidated affiliate in which the Company owns a 50% interest, under the terms of an agreement with a third party that owns property as part of York Town Center. Under the terms of that agreement, YTC is obligated to cause performance of the third party's obligations as landlord under its lease with its sole tenant, including, but not limited to, provisions such as co-tenancy and exclusivity requirements. Should YTC fail to cause performance, then the tenant under the third party landlord's lease may pursue certain remedies ranging from rights to terminate its lease to receiving reductions

in rent. The Company has guaranteed YTC's performance under this agreement up to a maximum of \$22,000, which decreases by \$800 annually until the guaranteed amount is reduced to \$10,000. The guaranty expires on December 31, 2020. The maximum guaranteed obligation was \$12,400 as of June 30, 2019. The Company entered into an agreement with its joint venture partner under which the joint venture partner has agreed to reimburse the Company 50% of any amounts it is obligated to fund under the guaranty. The Company did not include an obligation for this guaranty because it determined that the fair value of the guaranty was not material as of June 30, 2019 and December 31, 2018.

Performance Bonds

The Company has issued various bonds that it would have to satisfy in the event of non-performance. The total amount outstanding on these bonds was \$15,824 and \$16,003 at June 30, 2019 and December 31, 2018, respectively.

Note 13 – Share-Based Compensation

As of June 30, 2019, the Company has outstanding awards under the CBL & Associates Properties, Inc. 2012 Stock Incentive Plan ("the 2012 Plan"), which was approved by the Company's shareholders in May 2012. The 2012 Plan permits the Company to issue stock options and common stock to selected officers, employees and non-employee directors of the Company up to a total of 10,400,000 shares. As the primary operating subsidiary of the Company, the Operating Partnership participates in and bears the compensation expense associated with the Company's share-based compensation plan.

Restricted Stock Awards

The Company may make restricted stock awards to independent directors, officers and its employees under the 2012 Plan. These awards are generally granted based on the performance of the Company and its employees. None of these awards have performance requirements other than a service condition of continued employment, unless otherwise provided. Compensation expense is recognized on a straight-line basis over the requisite service period.

Share-based compensation expense related to the restricted stock awards was \$546 and \$709 for the three months ended June 30, 2019 and 2018, respectively, and \$2,259 and \$2,476 for the six months ended June 30, 2019 and 2018, respectively. Share-based compensation cost capitalized as part of real estate assets was \$27 and \$102 for the three months ended June 30, 2019 and 2018, respectively, and \$41 and \$224 for the six months ended June 30, 2019 and 2018, respectively.

A summary of the status of the Company's nonvested restricted stock awards as of June 30, 2019, and changes during the six months ended June 30, 2019, is presented below:

	Shares	Weighted-Average Grant Date Fair Value
Nonvested at January 1, 2019	875,497	\$ 7.99
Granted	855,681	\$ 2.23
Vested	(744,574)	\$ 5.11
Forfeited	(8,158)	\$ 6.29
Nonvested at June 30, 2019	<u>978,446</u>	<u>\$ 5.16</u>

As of June 30, 2019, there was \$4,142 of total unrecognized compensation cost related to nonvested stock awards granted under the plans, which is expected to be recognized over a weighted-average period of 2.6 years.

Long-Term Incentive Program

In 2015, the Company adopted a long-term incentive program ("LTIP") for its named executive officers, which consists of performance stock unit ("PSU") awards and annual restricted stock awards, that may be issued under the 2012 Plan. The number of shares related to the PSU awards that each named executive officer may receive upon the conclusion of a three-year performance period is determined based on the Company's achievement of specified levels of long-term total stockholder return ("TSR") performance relative to the National Association of Real Estate Investment Trusts ("NAREIT") Retail Index, provided that at least a "Threshold" level must be attained for any shares to be earned.

Beginning with the 2018 PSUs, two-thirds of the quantitative portion of the award over the performance period will be based on the achievement of TSR relative to the NAREIT Retail Index while the remaining one-third will be based on the achievement of absolute TSR metrics for the Company. To maintain compliance with the 200,000 share annual equity grant limit under the 2012 Plan, beginning with the 2018 PSU grant, to the extent that a grant of PSUs could result in the issuance of a number of shares of common stock at the conclusion of the performance period that, when coupled with the number of shares of time-vesting restricted stock granted in the same year the PSUs were granted, would exceed the annual limit, any such excess will be converted to a cash bonus award with a value equivalent to the number of shares of common stock constituting such excess times the average of the high and low trading prices reported for CBL's common stock on the date such shares would otherwise have been issuable. Any such portion of the value of the 2018 PSUs or the 2019 PSUs earned payable as a cash bonus will be subject to the same vesting provisions as the issuance of common stock pursuant to the PSUs and is not expected to be significant. In addition, to the extent any cash is to be paid, the cash will be paid first relative to the vesting schedule, ahead of the issuance of shares of common stock with respect to the balance of PSUs earned.

Annual Restricted Stock Awards

Under the LTIP, annual restricted stock awards consist of shares of time-vested restricted stock awarded based on a qualitative evaluation of the performance of the Company and the named executive officer during the fiscal year. Annual restricted stock awards under the LTIP, which are included in the totals reflected in the preceding table, vest 20% on the date of grant with the remainder vesting in four equal annual installments.

Performance Stock Units

A summary of the status of the Company's PSU activity as of June 30, 2019, and changes during the six months ended June 30, 2019, is presented below:

	PSUs	Weighted-Average Grant Date Fair Value
Outstanding at January 1, 2019	910,911	\$ 4.67
2019 PSUs granted (1)	1,103,537	\$ 2.40
Outstanding at June 30, 2019 (2)	<u>2,014,448</u>	\$ 3.42

(1) Includes 566,862 shares classified as a liability due to the potential cash component described above.

(2) None of the PSUs outstanding at June 30, 2019 were vested.

Shares earned pursuant to the PSU awards vest 60% at the conclusion of the performance period while the remaining 40% of the PSU award vests 20% on each of the first two anniversaries thereafter.

Compensation cost is recognized on a tranche-by-tranche basis using the accelerated attribution method. The resulting expense, for awards classified as equity, is recorded regardless of whether any PSU awards are earned as long as the required service period is met.

The fair value of the potential cash component related to the 2019 PSUs is measured at each reporting period, using the same methodology as was used at the initial grant date, and classified as a liability on the condensed consolidated balance sheet as of June 30, 2019 with an adjustment to compensation expense. If the performance criterion is not satisfied at the end of the performance period for the 2019 PSUs, previously recognized compensation expense related to the liability-classified awards would be reversed as there would be no value at the settlement date.

Share-based compensation expense related to the PSUs was \$443 and \$533 for the three months ended June 30, 2019 and 2018, respectively, and \$869 and \$952 for the six months ended June 30, 2019 and 2018, respectively. Unrecognized compensation costs related to the PSUs was \$3,304 as of June 30, 2019, which is expected to be recognized over a weighted-average period of 4.0 years.

The following table summarizes the assumptions used in the Monte Carlo simulation pricing model related to the PSUs:

	2019 PSUs	2018 PSUs	2017 PSUs
Grant date	February 11, 2019	February 12, 2018	February 7, 2017
Fair value per share on valuation date (1)	\$ 4.74	\$ 4.76	\$ 6.86
Risk-free interest rate (2)	2.54%	2.36%	1.53%
Expected share price volatility (3)	60.99%	42.02%	32.85%

(1) The value of the PSU awards is estimated on the date of grant using a Monte Carlo simulation model. The valuation consists of computing the fair value using CBL's simulated stock price as well as TSR over a three-year performance period. The award is modeled as a contingent claim in that the expected return on the underlying shares is risk-free and the rate of discounting the payoff of the award is also risk-free. The weighted-average fair value per share related to the 2019 PSUs classified as equity consists of 357,800 shares at a fair value of \$2.45 (which relate to relative TSR) and 178,875 shares at a fair value of \$2.29 per share (which relate to absolute TSR). The weighted-average fair value per share related to the 2018 PSUs classified as equity consists of 240,164 shares at a fair value of \$3.13 per share (which relate to relative TSR) and \$120,064 shares at a fair value of \$1.63 per share (which relate to absolute TSR).

(2) The risk-free interest rate was based on the yield curve on zero-coupon U.S. Treasury securities in effect as of the valuation date, which is the respective grant date listed above.

(3) The computation of expected volatility was based on a blend of the historical volatility of CBL's shares of common stock based on annualized daily total continuous returns over a three-year period and implied volatility data based on the trailing month average of daily implied volatilities implied by stock call option contracts that were both closest to the terms shown and closest to the money.

Note 14 – Noncash Investing and Financing Activities

The Company's noncash investing and financing activities were as follows:

In July 2019, the lender foreclosed on the loan secured by Triangle Town Center.

In August 2019, the Village Square note receivable was amended to extend the maturity date to September 30, 2019.

ITEM 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of financial condition and results of operations should be read in conjunction with the condensed consolidated financial statements and accompanying notes that are included in this Form 10-Q. Capitalized terms used, but not defined, in this Management's Discussion and Analysis of Financial Condition and Results of Operations have the same meanings as defined in the notes to the condensed consolidated financial statements. In this discussion, the terms "we," "us" and "our" refer to the Company or the Company and the Operating Partnership collectively, as the text requires.

Certain statements made in this section or elsewhere in this report may be deemed "forward-looking statements" within the meaning of the federal securities laws. All statements other than statements of historical fact should be considered to be forward-looking statements. In many cases, these forward-looking statements may be identified by the use of words such as "will," "may," "should," "could," "believes," "expects," "anticipates," "estimates," "intends," "projects," "goals," "objectives," "targets," "predicts," "plans," "seeks," and variations of these words and similar expressions. Any forward-looking statement speaks only as of the date on which it is made and is qualified in its entirety by reference to the factors discussed throughout this report.

Although we believe the expectations reflected in any forward-looking statements are based on reasonable assumptions, forward-looking statements are not guarantees of future performance or results and we can give no assurance that these expectations will be attained. It is possible that actual results may differ materially from those indicated by these forward-looking statements due to a variety of known and unknown risks and uncertainties. In addition to the risk factors described in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2018, such known risks and uncertainties include, without limitation:

- general industry, economic and business conditions;
- interest rate fluctuations;
- costs and availability of capital, including debt, and capital requirements;
- costs and availability of real estate;
- inability to consummate acquisition opportunities and other risks associated with acquisitions;
- competition from other companies and retail formats;
- changes in retail demand and rental rates in our markets;
- shifts in customer demands including the impact of online shopping;
- tenant bankruptcies or store closings;
- changes in vacancy rates at our properties;
- changes in operating expenses;
- changes in applicable laws, rules and regulations;
- sales of real property;
- cyber-attacks or acts of cyber-terrorism;
- changes in the credit ratings of the Operating Partnership's senior unsecured long-term indebtedness;
- the ability to obtain suitable equity and/or debt financing and the continued availability of financing, in the amounts and on the terms necessary to support our future refinancing requirements and business; and
- other risks referenced from time to time in filings with the SEC and those factors listed or incorporated by reference into this report.

This list of risks and uncertainties is only a summary and is not intended to be exhaustive. We disclaim any obligation to update or revise any forward-looking statements to reflect actual results or changes in the factors affecting the forward-looking information.

EXECUTIVE OVERVIEW

We are a self-managed, self-administered, fully integrated REIT that is engaged in the ownership, development, acquisition, leasing, management and operation of regional shopping malls, open-air and mixed-use centers, outlet centers, associated centers, community centers and office properties. See [Note 1](#) to the condensed

consolidated financial statements for information on our property interests as of June 30, 2019. We have elected to be taxed as a REIT for federal income tax purposes.

We had a net loss for the three and six months ended June 30, 2019 of \$(29.7) million and \$(76.5) million, respectively, compared to a net loss for the three and six months ended June 30, 2018 of \$(30.0) million and \$(30.6) million, respectively. We recorded a net loss attributable to common shareholders for the three and six months ended June 30, 2019 of \$(35.4) million and \$(85.6) million, respectively, compared to a net loss for the three and six months ended June 30, 2018 of \$(35.0) million and \$(45.3) million, respectively. For the three month period, earnings from Comparable Properties (defined below) were down primarily due to store closures and rent concessions for tenants with high occupancy cost levels, including tenants that declared bankruptcy in 2018 and 2019. This decline was offset by a lower loss on impairment as compared to the prior period. The decline for the six month period was primarily due to lower earnings from Comparable Properties (defined below) due to store closures and rent concessions for tenants with high occupancy cost levels, including tenants that declared bankruptcy in 2018 and 2019. Also contributing to the decline was the litigation settlement expense of \$88.2 million that was recognized in the first quarter of 2019, which was partially offset by gains on extinguishment of debt of \$71.7 million that were also recorded in the first quarter of 2019.

During the second quarter, Ascena announced that it would be closing all its dressbarn stores at the end of 2019. We have 12 dressbarn stores in our portfolio that account for \$1.3 million in annual rents. Additionally, Charming Charlie announced that it was closing all of its stores August 31, 2019. We have 11 stores in our portfolio that account for \$0.9 million in annual rents.

Quarterly results were in-line with our expectations. Lease spreads improved and same-center sales increased over 4% during the second quarter. We have 24 replacements committed, under construction or open for the 40 closed anchors in our portfolio, demonstrating tremendous progress on our anchor replacement program. This program will help stabilize our income as we replace lost revenues, mitigate co-tenancy exposure and deliver new uses that drive traffic and strengthen the entire property. See the "[Liquidity and Capital Resources](#)" section for information on our development, expansion and redevelopment projects as of June 30, 2019.

We continue to strengthen our balance sheet by extending our maturity schedule. In January 2019, we replaced all of our unsecured lines of credit and unsecured term loans with a new \$1.185 billion secured credit facility, which is comprised of a \$685.0 million line of credit and a fully funded \$500.0 million term loan. With this closing, we have addressed our significant debt maturities for 2019 and have addressed all of our unsecured debt maturities until 2023. See "[Liquidity and Capital Resources](#)" for more information on financing activity.

In March 2019, our Board of Directors approved the structure of a settlement in a class action lawsuit. We have denied, and continue to deny, any wrongdoing and believe that our actions at all times have been proper and lawful. However, given the class certification, the accelerated trial schedule, the inherent risk of any trial, and the potential cost of an adverse resolution of the litigation, we believed that a settlement was in the Company's best interest and in the best interests of our shareholders. We recognized litigation settlement expense of \$88.2 million during the first quarter as a result of the settlement. See [Note 12](#) to the condensed consolidated financial statements for more information.

We continue to capitalize on opportunities to raise attractively priced capital from non-core assets, as evidenced by the \$120.0 million in gross asset sales that have been completed year-to-date. This combined with our estimated free cash flow of over \$200.0 million provides liquidity to invest in our redevelopment program.

Same-center NOI and FFO are non-GAAP measures. For a description of same-center NOI, a reconciliation from net income (loss) to same-center NOI, and an explanation of why we believe this is a useful performance measure, see **Non-GAAP Measure - Same-center Net Operating Income** in "[Results of Operations](#)." For a description of FFO, a reconciliation from net income (loss) attributable to common shareholders to FFO allocable to Operating Partnership common unitholders, and an explanation of why we believe this is a useful performance measure, see "[Non-GAAP Measure - Funds from Operations](#)."

RESULTS OF OPERATIONS

Properties that were in operation for the entire year during 2018 and the six months ended June 30, 2019 are referred to as the "Comparable Properties." Since January 1, 2018, we have opened two self-storage facilities and one community center as follows:

Property	Location	Date Opened
EastGate Mall - CubeSmart Self-storage (1)	Cincinnati, OH	September 2018
The Shoppes at Eagle Point (1)	Cookeville, TN	November 2018
Mid Rivers Mall - CubeSmart Self-storage (1)	St. Peters, MO	January 2019

(1) Each of these properties is owned by a 50/50 joint venture that is accounted for using the equity method of accounting and is included in equity in earnings of unconsolidated affiliates in the accompanying condensed consolidated statements of operations.

Non-core properties are defined as Excluded Malls - see definition that follows under "**Operational Review.**"

Property operating expenses at the Comparable Properties decreased primarily due to a change in the classification of bad debt expense as a result of the adoption of ASC 842 effective January 1, 2019. Bad debt expense of \$0.7 million was included in property operating expenses for the three months ended June 30, 2018; however, beginning January 1, 2019, rental revenues that are estimated to be uncollectable are reflected as a decrease in rental revenues. For the three months ended June 30, 2019, we recognized \$0.2 million as a reduction to rental revenues for amounts that are estimated to be uncollectable, all of which was related to the Comparable Properties. The remaining decrease in property operating expenses of the Comparable Properties was primarily due to lower utilities, security and payroll expenses. Real estate tax expense declined as a number of the Comparable Properties experienced reductions in real estate taxes in their respective markets. Maintenance and repairs expenses decreased primarily due to lower janitorial costs partially offset by an increase in snow removal costs at certain properties.

The \$5.9 million decrease in depreciation and amortization expense related to the Comparable Properties primarily relates to a decrease in write-offs of tenant improvements and intangible lease assets related to store closings in the prior year period, as well as store closures since June 30, 2018.

General and administrative expenses increased primarily due to no longer capitalizing the cost of leasing personnel for development projects as a result of adopting the new leasing standard in 2019 and legal costs, which were partially offset by reductions in salary and stock compensation costs.

In the second quarter of 2019, we recognized \$41.6 million of loss on impairment of real estate to write down the book value of one mall and one community center. In the second quarter of 2018, we recognized a \$52.0 million loss on impairment of real estate to write down the book value of a mall. See [Note 5](#) to the condensed consolidated financial statements for more information.

Other Income and Expenses

Interest expense decreased \$1.7 million for the three months ended June 30, 2019 compared to the prior-year period. The decrease was primarily due to a \$2.8 million decrease in property-level interest expense due to the dispositions in January 2019 of Acadiana Mall and Cary Town Center, which were encumbered by non-recourse mortgage loans. This decrease was partially offset by an increase in corporate-level interest expense due to higher variable rates on our corporate-level debt as compared to the prior-year quarter, partially related to the higher interest rate spread under our new credit facility as compared with the prior, as well as increases in LIBOR.

Equity in earnings of unconsolidated affiliates decreased by \$2.5 million during the three months ended June 30, 2019 compared to the prior-year period. The decrease was primarily due to gains on two outparcel sales at unconsolidated affiliates in the prior-year period and decreases in rental revenues at several malls primarily due to store closures and rent concessions for tenants with high occupancy cost levels, including tenants in bankruptcy.

During the three months ended June 30, 2019, we recognized \$5.5 million of gain on sales of real estate assets primarily related to the sale of a center, a hotel and an outparcel. During the three months ended June 30, 2018, we recognized \$3.7 million of gain on sales of real estate assets related to the sale of two outparcels.

Property operating expenses at the Comparable Properties decreased primarily due to a change in the classification of bad debt expense as a result of the adoption of ASC 842 effective January 1, 2019. Bad debt expense of \$2.7 million was included in property operating expenses for the six months ended June 30, 2018; however, beginning January 1, 2019, rental revenues that are estimated to be uncollectable are reflected as a decrease in rental revenues. For the six months ended June 30, 2019, we recognized \$1.7 million as a reduction to rental revenues for amounts that are estimated to be uncollectable, substantially all of which was related to the Comparable Properties. The remaining decrease in property operating expenses of the Comparable Properties was primarily due to lower utilities, security, marketing and payroll expenses. Real estate tax expense declined as a number of the Comparable Properties experienced reductions in real estate taxes in their respective markets. Maintenance and repairs expenses increased slightly primarily due to higher snow removal and repair expenses, partially offset by lower janitorial costs.

The \$4.3 million decrease in depreciation and amortization expense related to the Comparable Properties primarily relates to a decrease due to write-offs of tenant improvements and intangible lease assets related to store closings in the prior year period, as well as store closures since June 30, 2018.

General and administrative expenses increased primarily due to higher legal expense related to litigation and no longer capitalizing the cost of leasing personnel for development projects as a result of adopting the new leasing standard in 2019, which were partially offset by reductions in salary and stock compensation costs.

For the six months ended June 30, 2019, we recognized \$66.4 million of loss on impairment of real estate to write down the book value of three malls and one community center. In 2018, we recognized a \$70.0 million loss on impairment of real estate to write down the book value of two malls. See [Note 5](#) to the condensed consolidated financial statements for more information.

For the six months ended June 30, 2019, we recognized \$88.2 million of litigation settlement expense related to the proposed settlement of a class action lawsuit. See [Note 12](#) to the condensed consolidated financial statements for more information.

Other Income and Expenses

Interest expense decreased \$1.5 million for the six months ended June 30, 2019 compared to the prior-year period. The decrease was primarily due to a \$5.6 million decrease in property-level interest expense due to the dispositions in January 2019 of Acadiana Mall and Cary Town Center, which were encumbered by non-recourse mortgage loans, and a paydown in May 2019 of a portion of the loan that is secured by The Outlet Shoppes at Laredo. This decrease was partially offset by an increase of \$4.1 million in corporate-level interest expense due to higher variable rates on our corporate-level debt as compared to the prior-year quarter, partially related to the higher interest rate spread under our new credit facility as compared with the previous credit facility, as well as increases in LIBOR.

During the six months ended June 30, 2019, we recorded \$71.7 million of gain on extinguishment of debt related to two malls. We transferred Acadiana Mall to the lender in satisfaction of the non-recourse debt secured by the property. We sold Cary Towne Center and used the net proceeds from the sale to satisfy a portion of the non-recourse loan that secured the property and the remaining principal balance was forgiven.

Equity in earnings of unconsolidated affiliates decreased by \$2.9 million during the six months ended June 30, 2019 compared to the prior-year period. The decrease was primarily due to gains on two outparcel sales at unconsolidated affiliates in the prior-year period and decreases in rental revenues at several malls primarily due to store closures and rent concessions for tenants with high occupancy cost levels, including tenants in bankruptcy.

During the six months ended June 30, 2019, we recognized \$5.8 million of gain on sales of real estate assets primarily related to the sale of a center, a hotel and an outparcel. During the six months ended June 30, 2018, we recognized \$8.1 million of gain on sales of real estate assets primarily related to the sale of a community center and five outparcels.

Non-GAAP Measure

Same-center Net Operating Income

NOI is a supplemental non-GAAP measure of the operating performance of our shopping centers and other properties. We define NOI as property operating revenues (rental revenues and other income) less property operating expenses (property operating, real estate taxes and maintenance and repairs).

We compute NOI based on the Operating Partnership's pro rata share of both consolidated and unconsolidated properties. We believe that presenting NOI and same-center NOI (described below) based on our Operating Partnership's pro rata share of both consolidated and unconsolidated properties is useful since we conduct substantially all of our business through our Operating Partnership and, therefore, it reflects the performance of the properties in absolute terms regardless of the ratio of ownership interests of our common shareholders and the noncontrolling interest in the Operating Partnership. Our definition of NOI may be different than that used by other companies, and accordingly, our calculation of NOI may not be comparable to that of other companies.

Since NOI includes only those revenues and expenses related to the operations of our shopping center properties, we believe that same-center NOI provides a measure that reflects trends in occupancy rates, rental rates, sales at the malls and operating costs and the impact of those trends on our results of operations. Our calculation of same-center NOI excludes lease termination income, straight-line rent adjustments, amortization of above and below market lease intangibles and write-offs of landlord inducement assets in order to enhance the comparability of results from one period to another.

We include a property in our same-center pool when we have owned all or a portion of the property since January 1 of the preceding calendar year and it has been in operation for both the entire preceding calendar year and current year-to-date period. New properties are excluded from same-center NOI until they meet these criteria. Properties excluded from the same-center pool that would otherwise meet these criteria are properties which are being repositioned or properties where we are considering alternatives for repositioning, where we intend to renegotiate the terms of the debt secured by the related property or return the property to the lender and those in which we own a noncontrolling interest of 25% or less. Triangle Town Center, Hickory Point Mall and Greenbrier Mall were classified as Lender Malls at June 30, 2019.

Due to the exclusions noted above, same-center NOI should only be used as a supplemental measure of our performance and not as an alternative to GAAP operating income (loss) or net income (loss). A reconciliation of our same-center NOI to net loss for the three and six month periods ended June 30, 2019 and 2018 is as follows (in thousands):

(1) Adjustments are based on our Operating Partnership's pro rata ownership share, including our share of unconsolidated affiliates and excluding noncontrolling interests' share of consolidated properties.

Same-center NOI decreased 5.7% for the three months ended June 30, 2019 as compared to the prior-year period. The \$8.7 million decrease for the three month period ended June 30, 2019 compared to the same period in 2018 primarily consisted of an \$11.5 million decrease in revenues offset by a \$2.8 million decline in operating expenses. Rental revenues declined \$15.4 million during the quarter primarily due to the impact of store closures and rent concessions for tenants with high occupancy cost levels, including tenants that declared bankruptcy. The \$2.8 million decrease in operating expenses includes a decrease in real estate tax expenses of \$1.1 million.

Same-center NOI decreased 5.3% for the six months ended June 30, 2019 as compared to the prior-year period. The \$16.1 million decrease for the six month period ended June 30, 2019 compared to the same period in 2018 primarily consisted of a \$24.5 million decrease in revenues partially offset by an \$8.4 million decline in operating expenses. Rental revenues declined \$28.5 million during the quarter primarily due to the impact of store closures and rent concessions for tenants with high occupancy cost levels, including tenants that declared bankruptcy. The decrease in rental revenues includes the impact of \$1.7 million of uncollectable revenues, which was formerly described as bad debt expense that was included in property operating expense in the prior-year period. The \$8.4 million decrease in operating expenses was primarily driven by bad debt expense of \$2.9 million in the prior-year period. Maintenance and repair expenses decreased \$0.6 million and real estate tax expenses decreased \$2.9 million.

Operational Review

The shopping center business is, to some extent, seasonal in nature with tenants typically achieving the highest levels of sales during the fourth quarter due to the holiday season, which generally results in higher percentage rents in the fourth quarter. Additionally, the malls earn most of their rents from short-term tenants during the holiday period. Thus, occupancy levels and revenue production are generally the highest in the fourth quarter of each year. Results of operations realized in any one quarter may not be indicative of the results likely to be experienced over the course of the fiscal year.

We classify our regional malls into three categories:

- (1) Stabilized Malls – Malls that have completed their initial lease-up and have been open for more than three complete calendar years.
- (2) Non-stabilized Malls - Malls that are in their initial lease-up phase. After three complete calendar years of operation, they are reclassified on January 1 of the fourth calendar year to the stabilized mall category. The Outlet Shoppes at Laredo was classified as a non-stabilized mall as of June 30, 2019 and 2018.
- (3) Excluded Malls - We exclude malls from our core portfolio if they fall in one of the following categories, for which operational metrics are excluded:

- a. Lender Malls - Malls for which we are working or intend to work with the lender on a restructure of the terms of the loan secured by the property or convey the secured property to the lender. Triangle Town Center, Hickory Point Mall and Greenbrier Mall were classified as Lender Malls as of June 30, 2019, and Acadiana Mall and Cary Towne Center were classified as a Lender Mall as of June 30, 2018. Lender Malls are excluded from our same-center pool as decisions made while in discussions with the lender may lead to metrics that do not provide relevant information related to the condition of these properties or they may be under cash management agreements with the respective servicers.
- b. Repositioning Malls - Malls that are currently being repositioned or where we have determined that the current format of the mall no longer represents the best use of the mall and we are in the process of evaluating alternative strategies for the mall. This may include major redevelopment or an alternative retail or non-retail format, or after evaluating alternative strategies for the mall, we may determine that the mall no longer meets our criteria for long-term investment. The steps taken to reposition these malls, such as signing tenants to short-term leases, which are not included in occupancy percentages, or leasing to regional or local tenants, which typically do not report sales, may lead to metrics which do not provide relevant information related to the condition of these malls. Therefore, traditional performance measures, such as occupancy percentages and leasing metrics, exclude Repositioning Malls. There were no malls classified as Repositioning Malls as of June 30, 2019. Hickory Point Mall was classified as a Repositioning Mall as of June 30, 2018.
- c. Minority Interest Malls - Malls in which we have a 25% or less ownership interest. There were no malls classified as Minority Interest Malls as of June 30, 2019. Triangle Town Center was classified as a Minority Interest Mall as of June 30, 2018.

We derive the majority of our revenues from the mall properties. The sources of our revenues by property type were as follows:

	Six Months Ended June 30,	
	2019	2018
Malls	88.4%	91.2%
Other properties	11.6%	8.8%

Mall Store Sales

Mall store sales include reporting mall tenants of 10,000 square feet or less for stabilized malls and exclude license agreements, which are retail contracts that are temporary or short-term in nature and generally last more than three months but less than twelve months. The following is a comparison of our same-center sales per square foot:

	Twelve Months Ended June 30,		
	2019	2018	% Change
Stabilized mall same-center sales per square foot	\$381	\$378	0.8%
Stabilized mall sales per square foot	\$381	\$376	1.3%

Sales for the second quarter were positive. Categories that performed well included fast casual dining, electronics, children's and family shoes, cosmetics and wellness.

Occupancy

Our portfolio occupancy is summarized in the following table ⁽¹⁾:

	As of June 30,	
	2019	2018
Total portfolio	90.2%	91.1%
<u>Malls:</u>		
Total mall portfolio	88.1%	89.2%
Same-center malls	88.1%	89.4%
Stabilized malls	88.3%	89.5%

<u>Other properties:</u>	97.0%	97.2%
Associated centers	96.3%	97.9%
Community centers	97.6%	96.9%

(1) As noted above, excluded properties are not included in occupancy metrics. Occupancy for malls represents percentage of mall store gross leasable area occupied under 20,000 square feet. Occupancy for other properties represents percentage of gross leasable area occupied.

(2) Represents occupancy for The Outlet Shoppes at Laredo as of June 30, 2019 and 2018.

Bankruptcy-related store closures impacted second quarter occupancy by approximately 322 basis points or 570,000 square feet. See Leasing below for an update on our progress in replacing these stores.

Leasing

The following is a summary of the total square feet of leases signed in the three and six month periods ended June 30, 2019:

(1) Average gross rent does not incorporate allowable future increases for recoverable common area expenses.

(2) Includes stabilized malls, associated centers, community centers and office buildings.

Spreads on new leases for stabilized malls declined 1.4% and renewal leases were signed at an average of 4.2% lower than the expiring rent. This quarter's results demonstrate a significant improvement from recent past quarters.

New and renewal leasing activity of comparable small shop space of less than 10,000 square feet based on the lease commencement date is as follows:

We are successfully diversifying the tenant mix with 86% of new mall leasing and 64% of our total mall leasing this year signed with non-apparel tenants. We are currently under construction, have agreements executed or are in active negotiation on three multi-family projects, 14 entertainment operators, including two casinos, 9 hotels, 35 restaurants, four fitness centers, six medical uses, two self-storage facilities, two grocers and a number of other non-retail uses. We are making great progress replacing vacant anchors with two dozen locations committed including eight already open and another six set to open later this year. Beyond this we have active negotiations or LOIs for several others. Anchor replacements such as the Live! Casino at Westmoreland Mall and Shoprite Supermarket at Stroud Mall are tangible examples of how we are transforming our centers with minimal cash investment.

LIQUIDITY AND CAPITAL RESOURCES

As of June 30, 2019, we had \$383.1 million outstanding on our secured credit facility leaving \$301.9 million of availability, after considering outstanding letters of credit of \$4.8 million, as well as unrestricted cash and cash equivalents of \$20.5 million. Our total pro rata share of debt at June 30, 2019 was \$4.4 billion. Our consolidated unencumbered properties generated approximately 26.8% of total consolidated NOI for the six months ended June 30, 2019 (excluding dispositions and Excluded Malls).

In April 2019, the loan secured by Volusia Mall was refinanced to increase the principal balance to \$50.0 million. In addition, the maturity date was extended to April 2024 and the fixed interest rate was reduced from 8.00% to 4.56%. The net proceeds from the new loan were used to retire the \$41.0 million existing loan. During the three months ended June 30, 2019, we sold three properties for a total gross sales price of \$32.2 million. The excess sales proceeds were used to reduce the outstanding balance on our secured line of credit, and the portion of those proceeds from the Honey Creek Mall sale were combined with the net proceeds from the refinancing of the loan secured by Volusia Mall to retire the \$23.5 million loan secured by Honey Creek Mall (See [Note 6](#) for additional information on dispositions). In May 2019, we exercised an option to extend the loan secured by The Outlet Shoppes at Laredo to May 2021. In conjunction with the amendment, a payment of \$10.8 million was made to reduce the outstanding balance of the loan to \$43.0 million. The noncontrolling interest partner in The Outlet Shoppes at Laredo joint venture funded its 35% share of the \$10.8 million payment. We also formed a new 50/50 joint venture to develop a self-storage facility adjacent to Parkdale Mall and closed in May 2019 on a five-year \$6.5 million construction loan which bears interest at the greater of 5.25% or LIBOR plus 2.80% to fund the project.

Subsequent to June 30, 2019, we sold the 850 Greenbrier Circle office building, the Barnes & Noble parcel in High Point, NC, the Kroger parcel at Foothills Plaza and the Forum at Grandview in Madison, MS, for a total gross price of \$46.6 million (See [Note 15](#) for additional information).

In April 2019, we entered into a settlement agreement and release with respect to a class action lawsuit. Under the terms of the settlement agreement, we will not pay any dividends to holders of our common shares payable in the third and fourth quarters of 2019. The settlement agreement does not restrict our ability to declare dividends payable in 2020 or in subsequent years. See [Note 12](#) to the condensed consolidated financial statements for more information related to the settlement.

We derive a majority of our revenues from leases with retail tenants, which have historically been the primary source for funding short-term liquidity and capital needs such as operating expenses, debt service, tenant construction allowances, recurring capital expenditures, dividends and distributions. We believe that the combination of cash flows generated from our operations, combined with our debt and equity sources and the availability under our credit facilities and proceeds from dispositions will, for the foreseeable future, provide adequate liquidity to meet our cash needs. In addition to these factors, we have options available to us to generate additional liquidity, including but not limited to, debt and equity offerings, joint venture investments, issuances of noncontrolling interests in our Operating Partnership, and decreasing expenditures related to tenant construction allowances and other capital expenditures. We also generate revenues from sales of peripheral land at our properties and from sales of real estate assets when it is determined that we can realize an optimal value for the assets.

Cash Flows - Operating, Investing and Financing Activities

There was \$45.5 million of cash, cash equivalents and restricted cash as of June 30, 2019, a decrease of \$12.0 million from December 31, 2018. Of this amount, \$20.5 million was unrestricted cash and cash equivalents as of June 30, 2019.

Our net cash flows are summarized as follows (in thousands):

	Six Months Ended June 30,		
	2019	2018	Change
Net cash provided by operating activities	\$ 126,032	\$ 179,882	\$ (53,850)
Net cash provided by (used in) investing activities	27,104	(22,837)	49,941
Net cash used in financing activities	(165,132)	(164,706)	(426)
Net cash flows	<u>\$ (11,996)</u>	<u>\$ (7,661)</u>	<u>\$ (4,335)</u>

Cash Provided by Operating Activities

Cash provided by operating activities decreased \$53.9 million primarily due to a decline in rental revenues related to store closures and rent concessions for tenants with high occupancy cost levels, including tenants in bankruptcy, and the disposition of two malls, two community centers and a hotel since June 30, 2018.

Cash Provided by (Used in) Investing Activities

Cash flows provided by investing activities increased \$49.9 million compared to the prior year. The cash inflow for 2019 was primarily related to a greater amount of proceeds from sales in the current period combined with less cash paid for capital expenditures as we continue to focus on controlling such expenditures. These increases were partially offset by a lower amount of distributions from unconsolidated affiliates in 2019 as we received a distribution from an unconsolidated affiliate in 2018 related to excess proceeds from the refinancing of a mortgage loan.

Cash Used in Financing Activities

Cash flows used in financing activities decreased \$0.4 million in 2019 compared to the prior year. Although the reduction in our common stock dividend resulted in savings of \$48.6 million in dividends and distributions paid to common shareholders and the noncontrolling interest holders in the Operating Partnership, this was offset by the additional \$32.6 million of principal payments on debt and the payment of \$15.4 million of deferred financing costs, which were mostly related to our new secured credit facility.

Debt

Debt of the Company

CBL has no indebtedness. Either the Operating Partnership or one of its consolidated subsidiaries, that it has a direct or indirect ownership interest in, is the borrower on all of our debt. CBL is a limited guarantor of the Notes, as described in [Note 8](#) to the condensed consolidated financial statements, for losses suffered solely by reason of fraud or willful misrepresentation by the Operating Partnership or its affiliates. We also provide a similar limited guarantee of the Operating Partnership's obligations with respect to our secured credit facility as of June 30, 2019.

Debt of the Operating Partnership

The following tables summarize debt based on our pro rata ownership share, including our pro rata share of unconsolidated affiliates and excluding noncontrolling investors' share of consolidated properties, because we believe this provides investors and lenders a clearer understanding of our total debt obligations and liquidity (in thousands):

(6) The balance is net of an unamortized discount of \$7,952 and \$8,365 as of June 30, 2019 and December 31, 2018, respectively.

(7) We replaced our unsecured lines of credit and unsecured term loans in January 2019 with a new secured senior credit facility.

(8) Represents a \$43,716 non-recourse mortgage loan secured by Cary Towne Center that was classified on the consolidated balance sheet as liabilities related to assets held for sale.

The weighted-average remaining term of our total share of consolidated and unconsolidated debt was 4.5 years and 4.0 years at June 30, 2019 and December 31, 2018, respectively. The weighted-average remaining term of our pro rata share of fixed-rate debt was 4.7 and 4.8 years at June 30, 2019 and December 31, 2018, respectively.

As of June 30, 2019 and December 31, 2018, our pro rata share of consolidated and unconsolidated variable-rate debt represented 23.2% and 22.8%, respectively, of our total pro rata share of debt.

See [Note 8](#) to the condensed consolidated financial statements for additional information concerning the amount and terms of our outstanding indebtedness and compliance with applicable covenants and restrictions as of June 30, 2019, as well as activity related to consolidated property loans.

See [Note 7](#) to the condensed consolidated financial statements for information related to activity related to unconsolidated affiliates.

(1) Represents same-center sales per square foot for mall tenants 10,000 square feet or less for stabilized malls.

(2) Operating metrics are included for unencumbered operating properties and do not include sales or occupancy of unencumbered parcels.

(3) Our consolidated unencumbered properties generated approximately 26.8% of total consolidated NOI of \$259,353 (which excludes NOI related to dispositions) for the six months ended June 30, 2019.

(4) NOI is derived from unencumbered portions of Tier One properties, including outparcels, anchors and former anchors that have been redeveloped, that are otherwise secured by a loan.

Equity

During the six months ended June 30, 2019, we paid dividends of \$48.4 million to holders of CBL's common stock and preferred stock, as well as \$11.7 million in distributions to the noncontrolling interest investors in the Operating Partnership and other consolidated subsidiaries. The Operating Partnership paid distributions of \$22.4 million and \$32.0 million on the preferred units and common units, respectively, as well as distributions of \$5.7 million to the noncontrolling interests in other consolidated subsidiaries.

Future dividends payable will be determined by our Board of Directors based upon circumstances at the time of declaration. The dividend was reduced to an annualized rate of \$0.30 per share beginning with the dividend payable in January 2019 from the prior annualized rate of \$0.80 per share. As previously noted, under the terms of the class action settlement agreement (see [Note 12](#) to the condensed consolidated financial statements), we will not pay any dividends to holders of our common shares payable in the third and fourth quarters of 2019. The settlement agreement does not restrict our ability to declare dividends payable in 2020 or in subsequent years.

As a publicly traded company, and as a subsidiary of a publicly traded company, we previously have accessed capital through both the public equity and debt markets. We currently have a shelf registration statement on file with the SEC authorizing us to publicly issue unspecified amounts of senior and/or subordinated debt securities, shares of preferred stock (or depositary shares representing fractional interests therein), shares of common stock, warrants or rights to purchase any of the foregoing securities, and units consisting of two or more of these classes or series of securities and limited guarantees of debt securities issued by the Operating Partnership. This shelf registration statement also authorized the Operating Partnership to publicly issue unsubordinated debt securities. This shelf registration statement was due to expire in July 2021. However, the Company no longer qualifies as a well-known seasoned issuer under SEC rules, and we therefore are unable to use this shelf registration.

Market Capitalization

Our total-market capitalization as of June 30, 2019 was computed as follows (in thousands, except stock prices):

	Shares Outstanding	Stock Price (1)	Value
Common stock and operating partnership units	200,230	\$ 1.04	\$ 208,239
7.375% Series D Cumulative Redeemable Preferred Stock	1,815	250.00	453,750
6.625% Series E Cumulative Redeemable Preferred Stock	690	250.00	172,500
Total market equity			834,489
Company's share of total debt, excluding unamortized deferred financing costs			4,416,058
Total market capitalization			<u>\$ 5,250,547</u>

(1) Stock price for common stock and Operating Partnership units equals the closing price of CBL's common stock on June 28, 2019. The stock prices for the preferred stock represent the liquidation preference of each respective series of preferred stock.

Capital Expenditures

Deferred maintenance expenditures are generally billed to tenants as CAM expense, and most are recovered over a 5 to 15-year period. Renovation expenditures are primarily for remodeling and upgrades of malls, of which a portion is recovered from tenants over a 5 to 15-year period. We recover these costs through fixed amounts with annual increases or pro rata cost reimbursements based on the tenant's occupied space.

The following table, which excludes expenditures for developments, redevelopments and expansions, summarizes these capital expenditures, including our share of unconsolidated affiliates' capital expenditures, for the three and six month periods ended June 30, 2019 compared to the same periods in 2018 (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2019	2018	2019	2018
Tenant allowances (1)	<u>\$ 8,796</u>	<u>\$ 13,097</u>	<u>\$ 11,050</u>	<u>\$ 28,221</u>

Capitalized interest	<u>619</u>	<u>951</u>	<u>1,182</u>	<u>1,538</u>
Total capital expenditures	<u>\$ 18,476</u>	<u>\$ 21,942</u>	<u>\$ 25,976</u>	<u>\$ 47,482</u>

(1) Tenant allowances primarily relate to new leases. Tenant allowances related to renewal leases were not material for the periods presented.

Annual capital expenditures budgets are prepared for each of our properties that are intended to provide for all necessary recurring and non-recurring capital expenditures. We believe that property operating cash flows, which include reimbursements from tenants for certain expenses, will provide the necessary funding for these expenditures.

Developments, Expansions and Redevelopments

The following tables summarize our development, expansion and redevelopment projects as of June 30, 2019.

Properties Opened During the Six Months Ended June 30, 2019

(Dollars in thousands)

Property	Location	CBL Ownership Interest	Total Project Square Feet	CBL's Share of			Opening Date	Initial Unleveraged Yield

Construction is in progress and is expected to be completed in the fall of 2019 on the first phase of redevelopment of the former Sears building at Brookfield Square, which includes new dining and entertainment options such as the Marcus Theater's Movie Tavern dine-in movie experience, Whirlyball entertainment center and Outback Steakhouse. Uncle Julio's has already opened on a pad in the former Sears parking lot and construction has commenced on the new city-owned hotel and convention center, which will connect to our center through a new landscaped walkway. We are also adding a boutique fitness studio and medical office as part of the redevelopment. Construction is progressing on the Sears redevelopment at Hamilton Place. The project includes Dave & Busters, Aloft Hotel, Dick's Sporting Goods, additional restaurants and office space - all joining Cheesecake Factory, which opened last December

Except for the projects presented above, we do not have any other material capital commitments as of June 30, 2019.

Off-Balance Sheet Arrangements

Unconsolidated Affiliates

We have ownership interests in 22 unconsolidated affiliates as of June 30, 2019 that are described in [Note 7](#) to the condensed consolidated financial statements. The unconsolidated affiliates are accounted for using the equity method of accounting and are reflected in the condensed consolidated balance sheets as investments in unconsolidated affiliates.

The following are circumstances when we may consider entering into a joint venture with a third party:

- Third parties may approach us with opportunities in which they have obtained land and performed some pre-development activities, but they may not have sufficient access to the capital resources or the development and leasing expertise to bring the project to fruition. We enter into such arrangements when we determine such a project is viable and we can achieve a satisfactory return on our investment. We typically earn development fees from the joint venture and provide management and leasing services to the property for a fee once the property is placed in operation.
- We determine that we may have the opportunity to capitalize on the value we have created in a property by selling an interest in the property to a third party. This provides us with an additional source of capital that can be used to develop or acquire additional real estate assets that we believe will provide greater potential for growth. When we retain an interest in an asset rather than selling a 100% interest, it is typically because this allows us to continue to manage the property, which provides us the ability to earn fees for management, leasing, development and financing services provided to the joint venture.

Guarantees

We may guarantee the debt of a joint venture primarily because it allows the joint venture to obtain funding at a lower cost than could be obtained otherwise. This results in a higher return for the joint venture on its investment, and a higher return on our investment in the joint venture. We may receive a fee from the joint venture for providing the guaranty. Additionally, when we issue a guaranty, the terms of the joint venture agreement typically provide that we may receive indemnification from the joint venture or have the ability to increase our ownership interest.

See [Note 12](#) to the condensed consolidated statements for information related to our guarantees of unconsolidated affiliates' debt as of June 30, 2019 and December 31, 2018.

CRITICAL ACCOUNTING POLICIES

Our discussion and analysis of financial condition and results of operations is based on our condensed consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the financial statements and disclosures. Some of these estimates and assumptions require application of difficult, subjective, and/or complex judgment about the effect of matters that are inherently uncertain and that may change in subsequent periods. We evaluate our estimates and assumptions on an ongoing basis. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Our Annual Report on Form 10-K for the year ended December 31, 2018 contains a discussion of our critical accounting policies and estimates in the Management's Discussion and Analysis of Financial Condition and Results of Operations section. There have been no material changes to these policies and estimates during the six months ended June 30, 2019. Our significant accounting policies are disclosed in Note 2 to the consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2018.

Recent Accounting Pronouncements

See [Note 2](#) to the condensed consolidated financial statements for information on recently issued accounting pronouncements.

Impact of Inflation and Deflation

Deflation can result in a decline in general price levels, often caused by a decrease in the supply of money or credit. The predominant effects of deflation are high unemployment, credit contraction and weakened consumer demand. Restricted lending practices could impact our ability to obtain financings or refinancings for our properties and our tenants' ability to obtain credit. Decreases in consumer demand can have a direct impact on our tenants and the rents we receive.

During inflationary periods, substantially all of our tenant leases contain provisions designed to mitigate the impact of inflation. These provisions include clauses enabling us to receive percentage rent based on tenants' gross sales, which generally increase as prices rise, and/or escalation clauses, which generally increase rental rates during the terms of the leases. In addition, many of the leases are for terms of less than 10 years, which may provide us the opportunity to replace existing leases with new leases at higher base and/or percentage rent if rents of the existing leases are below the then existing market rate. Most of the leases require the tenants to pay a fixed amount, subject to annual increases, for their share of operating expenses, including CAM, real estate taxes, insurance and certain capital expenditures, which reduces our exposure to increases in costs and operating expenses resulting from inflation.

Non-GAAP Measure

Funds from Operations

FFO is a widely used non-GAAP measure of the operating performance of real estate companies that supplements net income (loss) determined in accordance with GAAP. NAREIT defines FFO as net income (loss) (computed in accordance with GAAP) excluding gains or losses on sales of depreciable operating properties and impairment losses of depreciable properties, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures and noncontrolling interests. Adjustments for unconsolidated partnerships, joint ventures and noncontrolling interests are calculated on the same basis. We define FFO as defined above by NAREIT less dividends on preferred stock of the Company or distributions on preferred units of the Operating Partnership, as applicable. Our method of calculating FFO may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs.

We believe that FFO provides an additional indicator of the operating performance of our properties without giving effect to real estate depreciation and amortization, which assumes the value of real estate assets declines predictably over time. Since values of real estate assets have historically risen or fallen with market conditions, we believe that FFO, which excludes historical cost depreciation and amortization, enhances investors' understanding of our operating performance. The use of FFO as an indicator of financial performance is influenced not only by the operations of our properties and interest rates, but also by our capital structure.

We present both FFO allocable to Operating Partnership common unitholders and FFO allocable to common shareholders, as we believe that both are useful performance measures. We believe FFO allocable to Operating Partnership common unitholders is a useful performance measure since we conduct substantially all of our business through our Operating Partnership and, therefore, it reflects the performance of the properties in absolute terms regardless of the ratio of ownership interests of our common shareholders and the noncontrolling interest in our Operating Partnership. We believe FFO allocable to common shareholders is a useful performance measure because it is the performance measure that is most directly comparable to net income (loss) attributable to common shareholders.

In our reconciliation of net income (loss) attributable to common shareholders to FFO allocable to Operating Partnership common unitholders that is presented below, we make an adjustment to add back noncontrolling interest in income (loss) of our Operating Partnership in order to arrive at FFO of the Operating Partnership common unitholders. We then apply a percentage to FFO of the Operating Partnership common unitholders to arrive at FFO allocable to common shareholders. The percentage is computed by taking the weighted-average number of common shares outstanding for the period and dividing it by the sum of the weighted-average number of common shares and the weighted-average number of Operating Partnership units held by noncontrolling interests during the period.

FFO does not represent cash flows from operations as defined by GAAP, is not necessarily indicative of cash available to fund all cash flow needs and should not be considered as an alternative to net income (loss) for purposes of evaluating our operating performance or to cash flow as a measure of liquidity.

The Company believes that it is important to identify the impact of certain significant items on its FFO measures for a reader to have a complete understanding of the Company's results of operations. Therefore, the Company has also presented adjusted FFO measures excluding these significant items from the applicable periods. Please refer

to the reconciliation of net income (loss) attributable to common shareholders to FFO allocable to Operating Partnership common unitholders below for a description of these adjustments.

FFO of the Operating Partnership decreased 25.6% to \$68.5 million for the three months ended June 30, 2019 as compared to \$92.1 million for the prior-year period, and decreased 35.7% to \$112.6 million for the six months ended June 30, 2019 as compared to \$175.0 million for the prior-year period. Excluding the adjustments noted below, FFO of the Operating Partnership, as adjusted, decreased 26.1% for the three months ended June 30, 2019 to \$68.5 million compared to \$92.8 million for the same period in 2018, and decreased 26.9% for the six months ended June 30, 2019 to \$129.1 million compared to \$176.6 million for the same period in 2018. The decrease in FFO, as adjusted, was primarily driven by lower property-level NOI, dilution from asset sales and higher general and administrative expenses resulting from legal and third party fees related to the new secured term loan and legal fees related to litigation.

The reconciliation of net loss attributable to common shareholders to FFO allocable to Operating Partnership common unitholders is as follows (in thousands, except per share data):

ITEM 3: Quantitative and Qualitative Disclosures About Market Risk

We are exposed to various market risk exposures, including interest rate risk. The following discussion regarding our risk management activities includes forward-looking statements that involve risk and uncertainties. Estimates of future performance and economic conditions are reflected assuming certain changes in interest rates. Caution should be used in evaluating our overall market risk from the information presented below, as actual results may differ.

Interest Rate Risk

Based on our proportionate share of consolidated and unconsolidated variable-rate debt at June 30, 2019, a 0.5% increase or decrease in interest rates on variable-rate debt would decrease or increase annual cash flows by approximately \$5.1 million and increase or decrease annual interest expense, after the effect of capitalized interest, by approximately \$5.0 million.

Based on our proportionate share of total consolidated and unconsolidated debt at June 30, 2019, a 0.5% increase in interest rates would decrease the fair value of debt by approximately \$51.1 million, while a 0.5% decrease in interest rates would increase the fair value of debt by approximately \$52.8 million.

ITEM 4: Controls and Procedures

Disclosure Controls and Procedures

As of the end of the period covered by this quarterly report, an evaluation was performed under the supervision of our Chief Executive Officer and Chief Financial Officer and with the participation of our management, of the effectiveness of the design and operation of the Company's and the Operating Partnership's disclosure controls and

procedures pursuant to Exchange Act Rule 13a-15. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's and the Operating Partnership's disclosure controls and procedures are effective to ensure that information that the Company and the Operating Partnership are required to disclose in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms and to ensure that information we are required to disclose is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

In conjunction with the implementation of ASC 842, *Leases*, which was adopted on January 1, 2019, we modified some of our processes around lease accounting. As a lessee, the guidance impacted the Company's condensed consolidated financial statements through the recognition of right-of-use ("ROU") assets and corresponding lease liabilities for operating leases as of January 1, 2019. As a lessor, the guidance impacted the Company's condensed consolidated financial statements in regard to the narrowed definition of initial direct costs that can be capitalized, the change in the presentation of rental revenues as one line item and the change in reporting uncollectable operating lease receivables as a reduction of rental revenues instead of property operating expense. There have been no other changes in the Company's or the Operating Partnership's internal control over financial reporting during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1: Legal Proceedings

In April 2019, we entered into a settlement agreement and release with respect to the class action lawsuit filed on March 16, 2016 in the United States District Court for the Middle District of Florida by Wave Lengths Hair Salons of Florida, Inc. d/b/a Salon Adrian. The settlement agreement states that we are to set aside a common fund with a monetary and non-monetary value of \$90.0 million to be disbursed to class members in accordance with an agreed-upon formula that is based upon aggregate damages of \$60.0 million. Class members will be comprised of past and current tenants at certain of our shopping centers that we own or formerly owned during the class period, which will extend from January 1, 2011 through the date of court preliminary approval. Class members who are past tenants and make a claim will receive payment of their claims in cash. Class members who are current tenants will receive monthly credits against rents and future charges, beginning no earlier than January 1, 2020 and continuing for the following five years. Any amounts under the settlement allocated to tenants with outstanding amounts payable to us, including tenants which have declared bankruptcy or declare bankruptcy over the relevant period, will first be deducted from the amounts owed to us. All attorney's fees and associated costs to be paid to class counsel (up to a maximum of \$28.0 million), any incentive award to the class representative (up to a maximum of \$50,000), and class administration costs (which are expected to not exceed \$100,000), will be funded by the common fund, but must be approved by the court. Under the terms of the settlement agreement, we will not pay any dividends to holders of our common shares payable in the third and fourth quarters of 2019. The settlement agreement does not restrict our ability to declare dividends payable in 2020 or in subsequent years. We recorded an accrued liability and corresponding litigation settlement expense of \$88,150 in the three months ended March 31, 2019 related to the settlement agreement.

We are currently involved in certain other litigation that arises in the ordinary course of business, most of which is expected to be covered by liability insurance. Based on current expectations, such matters, both individually and in the aggregate, are not expected to have a material adverse effect on our liquidity, results of operations, business or financial condition.

Securities Litigation

The Company and certain of its officers and directors have been named as defendants in three putative securities class action lawsuits (collectively, the "Securities Class Action Litigation"), each filed in the United States District Court for the Eastern District of Tennessee, on behalf of all persons who purchased or otherwise acquired the Company's securities during a specified period of time. The first such lawsuit, captioned *Paskowitz v. CBL & Associates Properties, Inc., et al.*, 1:19-cv-00149-JRG-CHS, was filed on May 17, 2019, and asserts claims on behalf of persons or entities that purchased CBL securities between November 8, 2017 and March 26, 2019, inclusive. The second such lawsuit, captioned *Williams v. CBL & Associates Properties, Inc., et al.*, 1:19-cv-00181, was filed on June 21, 2019, and asserts claims on behalf of persons or entities that purchased CBL securities between April 29, 2016 and March 26, 2019, inclusive. The third such lawsuit, captioned *Merelles v. CBL & Associates Properties, Inc., et al.*, 1:19-CV-00193,

was filed on July 2, 2019, and asserts claims on behalf of persons or entities that purchased CBL securities between July 29, 2014 and March 26, 2019. The Court consolidated these cases on July 17, 2019, under the caption *In re CBL & Associates Properties, Inc. Securities Litigation*, 1:19-cv-00149-JRG-CHS. After plaintiff Laurence Paskowitz voluntarily dismissed his case on July 25, 2019, the Court re-consolidated the two remaining cases under the caption *In re CBL & Associates Properties, Inc. Securities Litigation*, 1:19-cv-00181-JRG-CHS, on August 2, 2019.

The complaints filed in the Securities Class Action Litigation allege violations of the securities laws, including, among other things, that the defendants made certain materially false and misleading statements and omissions regarding the Company's contingent liabilities, business, operations, and prospects during the periods of time specified above. The plaintiffs seek compensatory damages and attorneys' fees and costs, among other relief, but have not specified the amount of damages sought. The outcome of these legal proceedings cannot be predicted with certainty.

Certain of the Company's current and former directors and officers have been named as defendants in three shareholder derivative lawsuits (collectively, the "Derivative Litigation"). On June 4, 2019, a shareholder filed a putative derivative complaint captioned *Robert Garfield v. Stephen D. Lebovitz et al.*, 1:19-cv-01038-LPS, in the United States District Court for the District of Delaware (the "Garfield Derivative Action"), purportedly on behalf of the Company against certain of its officers and directors. On June 24, 2019, another shareholder filed a putative derivative complaint captioned *Robert Cohen v. Stephen D. Lebovitz et al.*, 1:19-cv-01185-LPS, also in the United States District Court for the District of Delaware (the "Cohen Derivative Action"), asserting substantially similar claims purportedly on behalf of the Company against similar defendants. The Court consolidated the Garfield Derivative Action and the Cohen Derivative Action on July 17, 2019, under the caption *In re CBL & Associates Properties, Inc. Derivative Litigation*, 1:19-cv-01038-LPS, and on July 19, 2019, the parties jointly moved to stay the case pending resolution of an eventual motion to dismiss in the Securities Class Action Litigation. On July 22, 2019, another shareholder filed a putative derivative complaint captioned *Shebitz v. Lebovitz et al.*, 1:19-cv-00213, in the United States District Court for the Eastern District of Tennessee, asserting substantially similar claims purportedly on behalf of the Company against similar defendants. On July 17, 2019, the Court consolidated the Garfield Derivative Action and the Cohen Derivative Action under the caption *In re CBL & Associates Properties, Inc. Derivative Litigation*, 1:19-cv-01038-LPS. On July 25, 2019, the Court stayed these two actions pending resolution of an eventual motion to dismiss in the related Securities Class Action Litigation.

The complaints filed in the Derivative Litigation allege, among other things, breaches of fiduciary duties, unjust enrichment, waste of corporate assets, and violations of the federal securities laws. The factual allegations upon which these claims are based are similar to the factual allegations made in the Securities Class Action Litigation, described above. The complaints filed in the Derivative Litigation seek, among other things, unspecified damages and restitution for the Company from the individual defendants, the payment of costs and attorneys' fees, and that the Company be directed to reform certain governance and internal procedures. The outcome of these legal proceedings cannot be predicted with certainty.

The Company's insurance carriers have been placed on notice of these matters.

ITEM 1A. Risk Factors

Note 1 – Organization and Basis of Presentation

CBL & Associates Properties, Inc. (“CBL”), a Delaware corporation, is a self-managed, self-administered, fully-integrated real estate investment trust (“REIT”) that is engaged in the ownership, development, acquisition, leasing, management and operation of regional shopping malls, open-air and mixed-use centers, outlet centers, associated centers, community centers and office properties. Its properties are located in 26 states, but are primarily in the southeastern and midwestern United States.

CBL conducts substantially all of its business through CBL & Associates Limited Partnership (the “Operating Partnership”), which is a variable interest entity (“VIE”). The Operating Partnership consolidates the financial statements of all entities in which it has a controlling financial interest or where it is the primary beneficiary of a VIE.

In January 2019, the Operating Partnership entered into a new \$1,185,000 senior secured credit facility which replaced all of the Operating Partnership’s prior unsecured bank facilities. The secured credit facility is secured by 17 malls and 3 associated centers that are owned by 36 wholly owned subsidiaries of the Operating Partnership (collectively the “Combined Guarantor Subsidiaries”). The Combined Guarantor Subsidiaries own an additional five malls, two associated centers and four mortgage notes receivable that are not collateral for the secured credit facility. The properties that are collateral for the secured credit facility and the properties and mortgage notes receivable that are not collateral are collectively referred to as the “Guarantor Properties”. In addition to the secured credit facility, the Operating Partnership’s debt includes three separate series of senior unsecured notes (the “Notes”). Based on the terms of the Notes, to the extent that any subsidiary of the Operating Partnership executes and delivers a guarantee to another debt facility, the Operating Partnership shall also cause the subsidiary to guarantee the Operating Partnership’s obligations under the Notes on a senior basis. In January 2019, the Combined Guarantor Subsidiaries entered a guarantee agreement with the issuer of the Notes to satisfy the guaranty requirement. The Combined Guarantor Subsidiaries and Guarantor Properties consisted of the following:

- (1) CW Joint Venture, LLC is a Guarantor Subsidiary because it is an entity in the ownership chain of Westmoreland Mall and Westmoreland Crossing, as noted below.
- (2) Property/asset is not collateral on the secured credit facility.
- (3) In January 2019, the Combined Guarantor Subsidiaries transferred title to the mall to the mortgage holder in satisfaction of the non-recourse debt secured by the property. See [Note 6](#) for additional information.
- (4) Mortgage Holdings, LLC is a Guarantor Subsidiary because it is an entity in the ownership chain of Turtle Creek Mall, as noted below.
- (5) Madison Joint Venture, LLC is a Guarantor Subsidiary because it is an entity in the ownership chain of East Towne Mall and West Towne Mall, as noted below.

Each of the Combined Guarantor Subsidiaries meet the criteria in Rule 3-10(f) of SEC Regulation S-X to provide condensed consolidating financial information as additional disclosure in the notes to the Operating Partnership's condensed consolidated financial statements because each Combined Guarantor Subsidiary is 100% owned by the Operating Partnership, the guaranty issued by each Combined Guarantor Subsidiary is full and unconditional and the guaranty issued by each Combined Guarantor Subsidiary is joint and several. However, the Operating Partnership has elected to provide these combined financial statements and accompanying notes for the Combined Guarantor Subsidiaries in lieu of including the condensed consolidating financial information in the notes to its condensed consolidated financial statements. These combined financial statements and notes are presented as an exhibit to the Operating Partnership's quarterly report on Form 10-Q for ease of reference.

The accompanying combined financial statements are unaudited. The results for the interim period ended June 30, 2019 are not necessarily indicative of the results to be obtained for the full fiscal year.

Note 2 – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements represent the combined financial statements of the Combined Guarantor Subsidiaries on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. All intercompany transactions have been eliminated. Results of operations realized in any one quarter may not be indicative of the results likely to be experienced over the course of the fiscal year.

Accounting Guidance Adopted

Description	Date Adopted & Application Method	Financial Statement Effect and Other Information
ASU 2016-02, <i>Leases</i> , and related subsequent amendments	January 1, 2019 - Modified Retrospective (elected optional transition method to apply at adoption date and record cumulative-effect adjustment as of January 1, 2019)	<p>The objective of the leasing guidance is to increase transparency and comparability by recognizing lease assets and liabilities on the balance sheet and disclosing key information about leasing arrangements. Putting nearly all leases on the balance sheet is the biggest change for lessees, as lessees will now be required to recognize a right-of-use ("ROU") asset and corresponding lease liability for assets with terms greater than 12 months. Under the FASB model, lessees will classify a lease as either a finance lease or an operating lease, while a lessor will classify a lease as either a sales-type, direct financing, or operating lease. A lessee should classify a lease based on whether the arrangement is effectively a purchase of the underlying asset. Leases that transfer control of the underlying asset to a lessee are classified as finance leases for lessees and sales-type leases for lessors, whereas leases where the lessee obtains control of only the use of the underlying asset, but not the underlying asset itself, will be classified as operating leases for both lessees and lessors. A lease may meet the lessee finance lease criteria even when control of the underlying asset is not transferred to the lessee, and in these cases the lease would be classified as an operating lease for the lessee and a direct finance lease by the lessor. The guidance to be applied by lessors is substantially similar to existing GAAP. In order to align lessor accounting with the principles in the revenue recognition guidance in ASC 606, a lessor is precluded from recognizing selling profit or sales revenue at lease commencement for a lease that does not transfer control of the underlying asset to the lessee. As a lessee, the guidance impacted the Combined Guarantor Subsidiaries' combined financial statements through the recognition of right-of-use ("ROU") assets and corresponding lease liabilities for operating leases as of January 1, 2019. As a lessor, the guidance impacted the Combined Guarantor Subsidiaries' combined financial statements in regard to the narrowed definition of initial direct costs that can be capitalized, the change in the presentation of rental revenues as one line item and the change in reporting uncollectable operating lease receivables as a reduction of rental revenues instead of property operating expense. The adoption did not result in a cumulative catch-up adjustment to opening equity. See Note 4 for further details.</p>

Accounting Guidance Not Yet Effective

Description	Expected Adoption Date & Application Method	Financial Statement Effect and Other Information
ASU 2016-13, <i>Measurement of Credit Losses on Financial Instruments</i>	January 1, 2020 - Modified Retrospective	<p>The guidance replaces the current incurred loss impairment model, which reflects credit events, with a current expected credit loss model, which recognizes an allowance for credit losses based on an entity's estimate of contractual cash flows not expected to be collected.</p> <p>The Combined Guarantor Subsidiaries are evaluating the impact that this update may have on the combined financial statements and related disclosures.</p>

Real Estate Assets

The Combined Guarantor Subsidiaries capitalize predevelopment project costs paid to third parties. All previously capitalized predevelopment costs are expensed when it is no longer probable that the project will be completed. Once development of a project commences, all direct costs incurred to construct the project, including

interest and real estate taxes, are capitalized. Additionally, certain general and administrative expenses are allocated to the projects and capitalized based on the amount of time applicable personnel work on the development project. Ordinary repairs and maintenance are expensed as incurred. Major replacements and improvements are capitalized and depreciated over their estimated useful lives.

All acquired real estate assets have been accounted for using the acquisition method of accounting and accordingly, the results of operations are included in the combined statements of operations from the respective dates of acquisition. The Combined Guarantor Subsidiaries allocate the purchase price to (i) tangible assets, consisting of land, buildings and improvements, as if vacant, and tenant improvements, and (ii) identifiable intangible assets and liabilities, generally consisting of above-market leases, in-place leases and tenant relationships, which are included in other assets, and below-market leases, which are included in accounts payable and accrued liabilities. The Combined Guarantor Subsidiaries use estimates of fair value based on estimated cash flows, using appropriate discount rates, and other valuation techniques to allocate the purchase price to the acquired tangible and intangible assets. Liabilities assumed generally consist of mortgage debt on the real estate assets acquired. Assumed debt is recorded at its fair value based on estimated market interest rates at the date of acquisition. The Combined Guarantor Subsidiaries expect future acquisitions will be accounted for as acquisitions of assets in which related transaction costs will be capitalized.

Depreciation is computed on a straight-line basis over estimated lives of 40 years for buildings, 10 to 20 years for certain improvements and 7 to 10 years for equipment and fixtures. Tenant improvements are capitalized and depreciated on a straight-line basis over the term of the related lease. Lease-related intangibles from acquisitions of real estate assets are generally amortized over the remaining terms of the related leases. The amortization of above- and below-market leases is recorded as an adjustment to rental revenues, while the amortization of all other lease-related intangibles is recorded as amortization expense. Any difference between the face value of the debt assumed and its fair value is amortized to interest expense over the remaining term of the debt using the effective interest method.

The Combined Guarantor Subsidiaries' intangibles and their balance sheet classifications as of June 30, 2019 and December 31, 2018, are summarized as follows:

	June 30, 2019		December 31, 2018	
	Cost	Accumulated Amortization	Cost	Accumulated Amortization
Intangible lease assets and other assets:				
Above-market leases	\$ 11,671	\$ (10,876)	\$ 12,307	\$ (11,198)
In-place leases	43,057	(36,163)	46,229	(37,381)
Tenant relationships	25,818	(4,719)	27,866	(4,880)
Accounts payable and accrued liabilities:				
Below-market leases	27,868	(22,199)	28,942	(21,805)

These intangibles are related to specific tenant leases. Should a termination occur earlier than the date indicated in the lease, the related unamortized intangible assets or liabilities, if any, related to the lease are recorded as expense or income, as applicable. The total net amortization expense of the above intangibles was \$665 and \$536 for the three months ended June 30, 2019 and 2018, respectively, and \$1,291 and \$1,262 for the six months ended June 30, 2019 and 2018, respectively. The estimated total net amortization expense for the six remaining months of 2019 and the following five succeeding years is \$709 for the remainder of 2019, \$1,166 in 2020, \$1,212 in 2021, \$991 in 2022, \$680 in 2023 and \$614 in 2024.

Total interest expense capitalized was \$101 and \$210 for the three months ended June 30, 2019 and 2018, respectively, and \$196 and \$398 for the six months ended June 30, 2019 and 2018, respectively.

Carrying Value of Long-Lived Assets

The Combined Guarantor Subsidiaries monitor events or changes in circumstances that could indicate the carrying value of a long-lived asset may not be recoverable. When indicators of potential impairment are present that suggest that the carrying amounts of a long-lived asset may not be recoverable, the Combined Guarantor Subsidiaries assess the recoverability of the asset by determining whether the asset's carrying value will be recovered through the estimated undiscounted future cash flows expected from the Combined Guarantor Subsidiaries' probability weighted use of the asset and its eventual disposition. In the event that such undiscounted future cash flows do not exceed the carrying value, the Combined Guarantor Subsidiaries adjust the carrying value of the long-lived asset to its estimated

fair value and recognizes an impairment loss. The estimated fair value is calculated based on the following information, in order of preference, depending upon availability: (Level 1) recently quoted market prices, (Level 2) market prices for comparable properties, or (Level 3) the present value of future cash flows, including estimated salvage value. Certain of the Combined Guarantor Subsidiaries' long-lived assets may be carried at more than an amount that could be realized in a current disposition transaction. Projections of expected future operating cash flows require that the Combined Guarantor Subsidiaries estimate future market rental income amounts subsequent to expiration of current lease agreements, property operating expenses, the number of months it takes to re-lease the property, and the number of years the property is held for investment, among other factors. As these assumptions are subject to economic and market uncertainties, they are difficult to predict and are subject to future events that may alter the assumptions used or management's estimates of future possible outcomes. Therefore, the future cash flows estimated in the Combined Guarantor Subsidiaries' impairment analyses may not be achieved. See [Note 5](#) for information related to the impairment of long-lived assets for 2019 and 2018.

Cash and Cash Equivalents

The Combined Guarantor Subsidiaries consider all highly liquid investments with original maturities of three months or less as cash equivalents.

Restricted Cash

Restricted cash of \$3,434 and \$7,139 was included in intangible lease assets and other assets at June 30, 2019 and December 31, 2018, respectively. Restricted cash consists primarily of cash held in escrow accounts for insurance, real estate taxes, capital expenditures and tenant allowances as required by the terms of certain mortgage notes payable.

Deferred Financing Costs

Net deferred financing costs related to the Combined Guarantor Subsidiaries' indebtedness of \$237 and \$361 were included in mortgage notes payable at June 30, 2019 and December 31, 2018, respectively. Deferred financing costs include fees and costs incurred to obtain financing and are amortized on a straight-line basis to interest expense over the terms of the related indebtedness. Amortization expense related to deferred financing costs was \$62 for each of the three months ended June 30, 2019 and 2018, respectively, and \$124 and \$139 for the six months ended June 30, 2019 and 2018, respectively. Accumulated amortization of deferred financing costs was \$1,216 and \$1,092 as of June 30, 2019 and December 31, 2018, respectively.

Gain on Sales of Real Estate Assets

Gains on the sale of real estate assets, like all non-lease related revenue, are subject to a five-step model requiring that the Combined Guarantor Subsidiaries identify the contract with the customer, identify the performance obligations in the contract, determine the transaction price, allocate the transaction price to the performance obligations in the contract, and recognize revenue upon satisfaction of the performance obligations. In circumstances where the Combined Guarantor Subsidiaries contract to sell a property with material post-sale involvement, such involvement must be accounted for as a separate performance obligation in the contract and a portion of the sales price allocated to each performance obligation. When the post-sale involvement performance obligation is satisfied, the portion of the sales price allocated to it will be recognized as gain on sale of real estate assets. Property dispositions with no continuing involvement will continue to be recognized upon closing of the sale.

Income Taxes

No provision has been made for federal and state income taxes since these taxes are the responsibility of the owners. As of June 30, 2019, tax years that generally remain subject to examination by the Combined Guarantor Subsidiaries' major tax jurisdictions include 2018, 2017, 2016 and 2015.

Concentration of Credit Risk

The Combined Guarantor Subsidiaries tenants include national, regional and local retailers. Financial instruments that subject the Combined Guarantor Subsidiaries to concentrations of credit risk consist primarily of tenant receivables. The Combined Guarantor Subsidiaries generally do not obtain collateral or other security to support financial instruments subject to credit risk, but monitors the credit standing of tenants. The Combined Guarantor Subsidiaries derive a substantial portion of rental income from various national and regional retail companies; however, no single tenant collectively accounted for more than 10.0% of the Combined Guarantor Subsidiaries' total combined revenues for the three and six months ended June 30, 2019.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Note 3 – Revenues

Contract Balances

A summary of the Combined Guarantor Subsidiaries' contract liability activity during the six months ended June 30, 2019 is presented below:

Revenue from Contracts with Customers

Operating expense reimbursements

Under operating and other agreements with third parties that own anchor or outparcel buildings at the Combined Guarantor Subsidiaries' properties and pay no rent, the Combined Guarantor Subsidiaries receive reimbursements for certain operating expenses such as ring road and parking lot maintenance, landscaping and other fees. These arrangements are primarily either set at a fixed rate with rate increases typically every five years or are on a variable (pro rata) basis, typically as a percentage of costs allocated based on square footage or sales. The majority of these contracts have an initial term and one or more extension options, which cumulatively approximate 50 or more years as historically the initial term and any extension options are reasonably certain of being executed by the third party. The standalone selling price of each performance obligation is determined based on the terms of the contract, which typically assign a price to each performance obligation that directly relates to the value the customer receives for the services being provided. Revenue is recognized as services are transferred to the customer. Variable consideration is based on historical experience and is generally recognized over time using the cost-to-cost method of measurement because it most accurately depicts the Combined Guarantor Subsidiaries' performance in satisfying the performance obligation. The cumulative catch-up method is used to recognize any adjustments in variable consideration estimates. Under this method, any adjustment is recognized in the period it is identified.

Marketing revenues

The Combined Guarantor Subsidiaries earn marketing revenues from advertising and sponsorship agreements. These fees may be for tangible items in which the Combined Guarantor Subsidiaries provide advertising services and creates signs and other promotional materials for the tenant or may be arrangements in which the customer sponsors a play area or event and receives specified brand recognition and other benefits over a set period of time. Revenue related to advertising services is recognized as goods and services are provided to the customer. Sponsorship revenue is recognized on a straight-line basis over the time period specified in the contract.

Performance obligations

A performance obligation is a promise in a contract to transfer a distinct good or service to a customer. If the contract does not specify the revenue by performance obligation, the Combined Guarantor Subsidiaries allocate the transaction price to each performance obligation based on its relative standalone selling price. Such prices are generally determined using prices charged to customers or using the Combined Guarantor Subsidiaries' expected cost plus margin. Revenue is recognized as the Combined Guarantor Subsidiaries' performance obligations are satisfied over time, as services are provided, or at a point in time, such as leasing a space to earn a commission. Open performance obligations are those in which the Combined Guarantor Subsidiaries have not fully or have partially provided the applicable good or services to the customer as specified in the contract. If consideration is received in advance of the Combined Guarantor Subsidiaries' performance, including amounts which are refundable, recognition of revenue is deferred until the performance obligation is satisfied or amounts are no longer refundable.

Practical Expedients

The Combined Guarantor Subsidiaries do not disclose the value of open performance obligations for (1) contracts with an original expected duration of one year or less and (2) contracts for which the Combined Guarantor Subsidiaries recognize revenue at the amount to which they have the right to invoice, which primarily relate to services performed for certain operating expense reimbursements, as described above. Performance obligations related to fixed operating expense reimbursements for certain noncancellable contracts are disclosed below.

Outstanding Performance Obligations

The Combined Guarantor Subsidiaries have outstanding performance obligations related to certain noncancellable contracts with customers for which they will receive fixed operating expense reimbursements for providing certain maintenance and other services as described above. As of June 30, 2019, the Combined Guarantor Subsidiaries expect to recognize these amounts as revenue over the following periods:

Performance obligation	Less than 5 years	5-20 years	Over 20 years	Total
Fixed operating expense reimbursements	\$ 12,341	\$ 23,691	\$ 35,312	\$ 71,344

The Combined Guarantor Subsidiaries evaluate performance obligations each period and make adjustments to reflect any known additions or cancellations. Performance obligations related to variable consideration which is based on sales is constrained.

Note 4 – Leases

Adoption of ASU 2016-02, and all related subsequent amendments

The Combined Guarantor Subsidiaries adopted ASC 842 (which includes ASU 2016-02 and all related subsequent amendments) on January 1, 2019 and applied the guidance to leases that commenced on or after January 1, 2019. Historical amounts for prior periods were not adjusted and will continue to be reported using the guidance in ASC 840, *Leases*.

To determine whether a contract contains a lease, the Combined Guarantor Subsidiaries evaluated contracts and verified that there was an identified asset and that the Combined Guarantor Subsidiaries, or the tenant, have the right to obtain substantially all the economic benefits from the use of the asset throughout the contract term. If a contract is determined to contain a lease, the lease is evaluated to determine whether it is an operating or financing lease, if the Combined Guarantor Subsidiaries are the lessee, or the lease is evaluated to determine whether it is an operating, direct financing or sales-type lease, if the Combined Guarantor Subsidiaries are the lessor. After determining that the contract contains a lease, the Combined Guarantor Subsidiaries identified the lease component and any nonlease components associated with that lease component, and through the Combined Guarantor Subsidiaries' election to combine lease and nonlease components for all asset classes, combined the components into a single lease component within each applicable lease.

The discount rate to be used for each lease was determined by assessing the Company's debt information, assessing the credit rating of the Company and the Company's debt, estimating a synthetic "secured" credit rating for the Company and estimating an appropriate incremental borrowing rate. Rental expense for lease payments related to operating leases is recognized on a straight-line basis over the lease term.

See [Note 2](#) for additional information about these accounting standards.

Rental Revenues

The majority of the Combined Guarantor Subsidiaries' revenues are earned through the lease of space at their properties. All of the Combined Guarantor Subsidiaries' leases with tenants for the use of space at our properties are classified as operating leases. Rental revenues include minimum rent, percentage rent, other rents and reimbursements from tenants for real estate taxes, insurance, common area maintenance ("CAM") and other operating expenses as provided in the lease agreements. The option to extend or terminate our leases is specific to each underlying tenant agreement. Typically, the Combined Guarantor Subsidiaries' leases contain penalties for early termination. The Combined Guarantor Subsidiaries do not have any leases that convey the right for the lessee to purchase the leased asset.

Minimum rental revenue from operating leases is recognized on a straight-line basis over the initial terms of the related leases. Certain tenants are required to pay percentage rent if their sales volumes exceed thresholds specified in their lease agreements. Percentage rent is recognized as revenue when the thresholds are achieved and the amounts become determinable.

The Combined Guarantor Subsidiaries receive reimbursements from tenants for real estate taxes, insurance, CAM and other recoverable operating expenses as provided in the lease agreements. Any tenant reimbursements that require fixed payments are recognized on a straight-line basis over the initial terms of the related leases, whereas any variable payments are recognized when earned in accordance with the tenant lease agreements. Tenant reimbursements related to certain capital expenditures are billed to tenants over periods of 5 to 15 years.

The components of rental revenues are as follows:

	Three Months Ended June 30, 2019	Six Months Ended June 30, 2019
Fixed lease payments	\$ 54,755	\$ 115,062
Variable lease payments	12,561	23,526
Total rental revenues	\$ 67,316	\$ 138,588

The undiscounted future fixed lease payments to be received under the Combined Guarantor Subsidiaries' operating leases as of June 30, 2019, are as follows:

Year Ending December 31,	Operating Leases
2019 (1)	\$ 100,377
2020	184,890
2021	163,745
2022	134,622
2023	113,575
2024	87,319
Thereafter	208,168
Total undiscounted lease payments	<u>\$ 992,696</u>

(1) Reflects rental payments for the fiscal period July 1, 2019 through December 31, 2019.

As required by the Comparative Under ASC 840 Option, which is a transitional amendment that allows for the presentation of comparative periods in the year of adoption under ASC 840 (the former leasing guidance), the Combined Guarantor Subsidiaries' future minimum rental income from lessees under non-cancellable operating leases where the Combined Guarantor Subsidiaries are the lessor as of December 31, 2018 is also presented below:

Years Ending December 31,	Operating Leases
2019	\$ 184,923
2020	154,944
2021	133,093
2022	107,092
2023	86,957
Thereafter	193,324
Total	<u>\$ 860,333</u>

Lessee

The Combined Guarantor Subsidiaries have one ground lease where they own the buildings and improvements, but lease the underlying land. The maturity of the lease is January 1, 2073 and provides for five year renewal options. The Combined Guarantor Subsidiaries included the renewal options in the lease term for purposes of calculating the lease liability and ROU asset because they have no plans to cease operating the asset associated with this ground lease. The lease payments on the ground lease are fixed.

The Combined Guarantor Subsidiaries' ROU asset and lease liability are presented in the combined balance sheets within intangible lease assets and other assets and accounts payable and accrued liabilities, respectively. A summary of the Combined Guarantor Subsidiaries' ROU asset and lease liability activity during the six months ended June 30, 2019 is presented below:

Table of Contents

	ROU Asset	Lease Liability
Balance as of January 1, 2019	\$ 493	\$ 490
Cash reduction	(20)	(20)
Noncash increase	16	19

Practical Expedients

In regard to leases that commenced before January 1, 2019, the Combined Guarantor Subsidiaries elected to use a package of practical expedients to not reassess whether any expired or existing contracts are or contain a lease, to not reassess lease classification for any expired or existing leases, and to not reassess initial direct costs for any existing leases. The Combined Guarantor Subsidiaries also elected a practical expedient to not assess whether existing or expired land easements that were not previously accounted for as leases under ASC 840 are or contain a lease under ASC 842. Additionally, the Combined Guarantor Subsidiaries elected a practical expedient by class of underlying asset applied to all leases to elect not to separate lease and nonlease components as long as the lease and at least one nonlease component have the same timing and pattern of transfer and the lease is classified as an operating lease. The combined component is being accounted for under ASC 842. The Combined Guarantor Subsidiaries made an accounting policy election to exclude sales and other similar taxes from revenues, and instead account for them as costs of the lessee. Lastly, the Combined Guarantor Subsidiaries have elected not to apply the recognition requirements of ASC 842 to short-term leases.

See [Note 2](#) for additional information about these accounting standards.

Note 5 – Fair Value Measurements

The Combined Guarantor Subsidiaries have categorized financial assets and financial liabilities that are recorded at fair value into a hierarchy in accordance with ASC 820, *Fair Value Measurements and Disclosure*, ("ASC 820") based on whether the inputs to valuation techniques are observable or unobservable. The fair value hierarchy contains three levels of inputs that may be used to measure fair value as follows:

- Level 1 – Inputs represent quoted prices in active markets for identical assets and liabilities as of the measurement date.
- Level 2 – Inputs, other than those included in Level 1, represent observable measurements for similar instruments in active markets, or identical or similar instruments in markets that are not active, and observable measurements or market data for instruments with substantially the full term of the asset or liability.
- Level 3 – Inputs represent unobservable measurements, supported by little, if any, market activity, and require considerable assumptions that are significant to the fair value of the asset or liability. Market valuations must often be determined using discounted cash flow methodologies, pricing models or similar techniques based on the Combined Guarantor Subsidiaries' assumptions and best judgment.

The asset or liability's fair value within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Under ASC 820, fair value measurements are determined based on the assumptions that market participants would use in pricing the asset or liability in an orderly transaction at the measurement date and under current market conditions. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs and consider assumptions such as inherent risk, transfer restrictions and risk of nonperformance.

Fair Value Measurements on a Recurring Basis

The carrying values of cash and cash equivalents, receivables, accounts payable and accrued liabilities are reasonable estimates of their fair values because of the short-term nature of these financial instruments. Based on the interest rates for similar financial instruments, the carrying value of the note receivable is a reasonable estimate of fair value. The estimated fair value of mortgage notes payable was \$256,285 and \$319,222 at June 30, 2019 and December 31, 2018, respectively. The fair value was calculated using Level 2 inputs by discounting future cash flows for mortgage notes payable using estimated market rates at which similar loans would be made currently.

Fair Value Measurements on a Nonrecurring Basis

The Combined Guarantor Subsidiaries measure the fair value of certain long-lived assets on a nonrecurring basis, through quarterly impairment testing or when events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. The Combined Guarantor Subsidiaries consider both quantitative and qualitative factors in their impairment analysis of long-lived assets. Significant quantitative factors include historical and forecasted information for each property such as net operating income ("NOI"), occupancy statistics and sales levels. Significant qualitative factors used include market conditions, age and condition of the property and tenant mix. Due to the significant unobservable estimates and assumptions used in the valuation of long-lived assets that experience impairment, the Combined Guarantor Subsidiaries classify such long-lived assets under Level 3 in the fair value hierarchy. Level 3 inputs primarily consist of sales and market data, independent valuations and discounted cash flow models.

Long-lived Assets Measured at Fair Value in 2019

The following table sets forth information regarding the Combined Guarantor Subsidiaries' assets that are measured at fair value on a nonrecurring basis and related impairment charges for the six months ended June 30, 2019:

	Fair Value Measurements at Reporting Date Using				Total Loss on Impairment
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Long-lived assets	\$ 56,300	\$ —	\$ —	\$ 56,300	\$ 22,770

During the six months ended June 30, 2019, the Combined Guarantor Subsidiaries recognized an impairment of \$22,770 related to one mall.

Impairment Date	Property	Location	Segment Classification	Loss on Impairment	Fair Value
March	Greenbrier Mall (1)	Chesapeake, VA	Malls	\$ 22,770	\$ 56,300

- (1) In accordance with the Combined Guarantor Subsidiaries' quarterly impairment process, the Combined Guarantor Subsidiaries wrote down the book value of the mall to its estimated fair value of \$56,300. The mall has experienced a decline of NOI due to store closures and rent reductions. Additionally, one anchor was vacant as of the date of impairment. Management determined the fair value of Greenbrier Mall using a discounted cash flow methodology. The discounted cash flow used assumptions including a holding period of ten years, with a sale at the end of the holding period, a capitalization rate of 11.0% and a discount rate 11.5%.

Note 6 – Dispositions

The Combined Guarantor Subsidiaries evaluate disposals utilizing the guidance in ASU 2014-08, *Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*. Based on analysis, the Combined Guarantor Subsidiaries determined that the dispositions described below do not meet the criteria for classification as discontinued operations and are not considered to be significant disposals based on its quantitative and qualitative evaluation. Thus, the results of operations of the properties described below, as well as any related gains or losses, are included in net income for all periods presented, as applicable.

2019 Dispositions

The Combined Guarantor Subsidiaries recognized a gain on extinguishment of debt for the property listed below, which represented the amount by which the outstanding debt balance exceeded the net book value of the property as of the transfer date. See [Note 7](#) for more information. The following is a summary of the Combined Guarantor Subsidiaries' 2019 dispositions:

Transfer Date	Property	Property Type	Location	Balance of Non-recourse Debt	Gain on Extinguishment of Debt
January	Acadiana Mall (1)	Mall	Lafayette, LA	\$ 119,760	\$ 61,796

- (1) The Combined Guarantor Subsidiaries transferred title to the mall to the mortgage holder in satisfaction of the non-recourse debt secured by the property. A loss on impairment of real estate of \$43,007 was recorded in 2017 to write down the book value of the mall to its then estimated fair value. The Combined Guarantor Subsidiaries also recorded \$305 of aggregate non-cash default interest expense during the first quarter of 2019.

2018 Dispositions

The Combined Guarantor Subsidiaries realized a gain of \$1,708 primarily related to the sale of four outparcels during the six months ended June 30, 2018. Also, the Company realized a loss of \$(11) related to costs incurred during the three and six months ended June 30, 2018, for outparcel sales that occurred in prior periods.

Note 7 – Mortgage Notes Payable, Net

Mortgage notes payable, net, consisted of the following:

	<u>Interest Rate (1)</u>	<u>Maturity Date</u>	<u>June 30, 2019</u>	<u>December 31, 2018</u>
Property				
Acadiana Mall (2)	5.67%	Apr-17	\$ —	\$ 119,760
Greenbrier Mall	5.41%	Dec-19	66,301	68,101
Park Plaza Mall	5.28%	Apr-21	79,831	81,287
Arbor Place Mall	5.10%	May-22	108,038	109,209
Total mortgage notes payable	5.23%		254,170	378,357
Unamortized deferred financing costs			(237)	(361)
Total mortgage notes payable, net			\$ 253,933	\$ 377,996

(1) Weighted-average interest rate includes the effect of debt premiums and discounts, but excludes amortization of deferred financing costs.

(2) See [Note 6](#) related to the retirement of this loan.

2018 Loan Repayments

In January 2018, the Combined Guarantor Subsidiaries repaid the outstanding balance of \$37,295 on the fixed-rate loan secured by Kirkwood Mall with cash contributed by the Operating Partnership. The loan had a maturity date of April 2018 and bore interest at 5.75%.

Scheduled Principal Payments

As of June 30, 2019, the scheduled principal amortization and balloon payments of the Combined Guarantor Subsidiaries' mortgage notes payable, excluding extensions available at the Combined Guarantor Subsidiaries' option, are as follows:

2019 (1)	\$ 68,980
2020	5,574
2021	77,844
2022	101,772
	<u>254,170</u>
Unamortized deferred financing costs	(237)
Total mortgage notes payable, net	\$ 253,933

(1) Reflects payments for the fiscal period July 1, 2019 through December 31, 2019.

Of the \$68,980 of scheduled principal payments in 2019, \$66,301 relates to the principal balance of Greenbrier Mall and \$2,679 relates to scheduled principal amortization.

The Combined Guarantor Subsidiaries' mortgage notes payable had a weighted-average maturity of 1.9 years as of June 30, 2019 and 1.1 years as of December 31, 2018.

Note 8 – Mortgage and Other Notes Receivable

Each of the mortgage notes receivable is collateralized by a first mortgage. Other notes receivable include amounts due from a government sponsored district for reimbursable costs pursuant to an agreement with the district. The Combined Guarantor Subsidiaries review the mortgage and other notes receivable to determine if the balances are realizable based on factors affecting the collectability of those balances. Mortgage and other notes receivable consist of the following:

	Maturity Date	As of June 30, 2019		As of December 31, 2018	
		Interest Rate	Balance	Interest Rate	Balance
Mortgages:					
The Promenade (1)	Jun 2019	5.00%	\$ 47,514	5.00%	\$ 47,514

			1,230		1,230
			\$ 76,569		\$ 76,747

- (1) The mortgaged property is owned by an entity that is controlled by the Operating Partnership and included in the Operating Partnership's condensed consolidated financial statements. The mortgage note receivable is interest only.
- (2) The note was amended subsequent to June 30, 2019 to extend the maturity date. See [Note 13](#) for additional information.
- (3) In conjunction with the sale of The Forum at Grandview in July 2019, the Combined Guarantor Subsidiaries received the remaining balance on the note.
- (4) The note was amended subsequent to June 30, 2019 to extend the maturity date. See [Note 13](#) for additional information.

Note 9 – Related Party Transactions

The Combined Guarantor Subsidiaries are party to management agreements with CBL & Associates Management, Inc. ("CBL Management"), which is controlled by the Operating Partnership, to manage the Guarantor Properties. The agreements provide that the Guarantor Properties pay management fees equal to a percentage of gross revenues as defined by the respective management agreements. The management fee percentage ranges from 2.5% to 3.5% based on the agreements. Within property operating expenses, management fee expense was \$1,522 and \$1,454 for the three months ended June 30, 2019 and 2018, respectively, and \$3,014 and \$3,005 for the six months ended June 30, 2019 and 2018, respectively.

Amounts payable to CBL Management for management fees were \$364 and \$176 as of June 30, 2019 and December 31, 2018.

Note 10 – Segment Information

The Combined Guarantor Subsidiaries measure performance and allocate resources according to property type, which is determined based on certain criteria such as type of tenants, capital requirements, economic risks, leasing terms, and short and long-term returns on capital. Rental income and tenant reimbursements from tenant leases provide the majority of revenues from all segments.

Information on the Combined Guarantor Subsidiaries' segments is presented as follows:

Note 11 – Contingencies

Litigation

On March 20, 2019, the board of directors of CBL, the parent of the Operating Partnership, approved the structure of a settlement of a class action lawsuit filed on March 16, 2016 in the United States District Court for the Middle District of Florida (the “Court”) by Wave Lengths Hair Salons of Florida, Inc. d/b/a Salon Adrian. The CBL entities that were the defendants in the action (and which are responsible for payments under the settlement) are CBL & Associates Properties, Inc., CBL & Associates Limited Partnership, CBL & Associates Management, Inc. and JG Gulf Coast Town Center, LLC (collectively, the “CBL Defendant Entities”). In its action, plaintiff sought unspecified monetary damages as well as costs and attorneys’ fees, based on allegations that the CBL Defendant Entities overcharged tenants at bulk metered malls for electricity. Under the terms of the proposed settlement, the CBL Defendant Entities have denied all allegations of wrongdoing and have asserted that their actions have at all times been lawful and proper. No Combined Guarantor Subsidiary is a CBL Defendant Entity and no Combined Guarantor Subsidiary is responsible for payment of amounts under the above-referenced settlement.

Class members will include past and current tenants of certain Guarantor Properties (the “Guarantor Class Subsidiaries”) during the class period, which will extend from January 1, 2011 through the date of the Court’s preliminary approval of the settlement. Under the terms of the proposed settlement, class members who are past tenants and make a claim will receive payment of their claims in cash. Class members who are current tenants will receive monthly credits against rents and future charges for a five-year period that will begin at a time determined in conjunction with the final settlement agreement (the “credit period”). Any amounts under the settlement allocated to tenants with outstanding amounts payable to the Guarantor Class Subsidiaries, the CBL Defendant Entities or any other affiliate of those entities, including tenants which have declared bankruptcy or declare bankruptcy over the credit period, will first be deducted from the amounts owed to the Guarantor Class Subsidiaries, the CBL Defendant Entities, or any other affiliate of those entities. CBL Defendant Entities will be responsible for directly paying all cash payments that are made to past tenants who have made a claim. CBL Defendant Entities will be responsible for directly funding to the Guarantor Class Subsidiaries an amount equal to any credits that are due to and taken by current tenants of the Guarantor Class Subsidiaries during the credit period. CBL Defendant Entities intend to fund all amounts due to past and current tenants under the settlement such that the Guarantor Class Subsidiaries’ cash flows and results of operations are not impacted by the settlement.

The Combined Guarantor Subsidiaries are currently involved in certain other litigation that arises in the ordinary course of business, most of which is expected to be covered by liability insurance. Management makes assumptions and estimates concerning the likelihood and amount of any potential loss relating to these matters using the latest information available. The Combined Guarantor Subsidiaries record a liability for litigation if an unfavorable outcome is probable and the amount of loss or range of loss can be reasonably estimated. If an unfavorable outcome is probable and a reasonable estimate of the loss is a range, the Combined Guarantor Subsidiaries accrue the best estimate within the range. If no amount within the range is a better estimate than any other amount, the Combined Guarantor Subsidiaries accrue the minimum amount within the range. If an unfavorable outcome is probable but the amount of the loss cannot be reasonably estimated, the Combined Guarantor Subsidiaries disclose the nature of the litigation and indicate that an estimate of the loss or range of loss cannot be made. If an unfavorable outcome is reasonably possible and the estimated loss is material, the Combined Guarantor Subsidiaries disclose the nature and estimate of the possible loss of the litigation. Based on current expectations, such matters, both individually and in the aggregate, are not expected to have a material adverse effect on the liquidity, results of operations, business or financial condition of the Combined Guarantor Subsidiaries.

Environmental Contingencies

The Combined Guarantor Subsidiaries evaluate potential loss contingencies related to environmental matters using the same criteria described above related to litigation matters. Based on current information, an unfavorable outcome concerning such environmental matters, both individually and in the aggregate, is considered to be reasonably possible. However, the Combined Guarantor Subsidiaries believe the maximum potential exposure to loss would not be material to results of operations or financial condition.

The Combined Guarantor Subsidiaries have a master insurance policy that provides coverage through 2022 for certain environmental claims up to \$10,000 per occurrence and up to \$50,000 in the aggregate, subject to deductibles and certain exclusions. At certain locations, individual policies are in place.
